Watching Nostalgia Stefanie Armbruster
2016-09-30 What is nostalgia in television? How far does a nostalgic text trigger nostalgic emotions? And how are nostalgic series received by different audience groups? Stefanie Armbruster uses an interdisciplinary approach as analytical and theoretical basis. Her detailed analyses identify nostalgia in reruns, remakes and period dramas such as "Knight Rider" or "Mad Men". Focus group discussions with German and Spanish viewers give new insights into its reception. The in-depth study helps to understand the interrelation of nostalgic texts and nostalgic reception better and explores a decisive part of a phenomenon that is omnipresent in our current TV landscape.

A Taste of Eureka Nostalgia 1983
The Circle of the Snake Grafton Tanner
2020-12-11 Shocked by 9/11, the Great Recession, digital anxiety, and ecological collapse, the West suffers from nostalgia. People everywhere yearn for a utopian version of the past that never existed. Desperate for relief, many long to escape from the present. Some will stop at nothing to achieve it. In his essential new book, Grafton Tanner, author of Babbling Corpse:
Vaporwave and the Commodification of Ghosts, argues that our nostalgia today is partly a consequence of the attention economy. At a time when historical literacy is crucial, and old prejudices are percolating into the present, Big Tech’s predictive algorithms are locking us into nostalgic feedback loops. The result is a precarious society with its gaze fixed on the good old days. Spanning from the ancient Sophists to Black Mirror, The Circle of the Snake is at once a reckoning with the myth of digital utopia and an incisive analysis of nostalgia as a weapon to spread fascism.

The Geography of Nostalgia Alastair Bonnett 2015-08-11 We are familiar with the importance of 'progress' and 'change'. But what about loss? Across the world, from Beijing to Birmingham, people are talking about loss: about the loss that occurs when populations try to make new lives in new lands as well as the loss of traditions, languages and landscapes. The Geography of Nostalgia is the first study of loss as a global and local phenomenon, something that occurs on many different scales and which connects many different people. The Geography of Nostalgia explores nostalgia as a child of modernity but
also as a force that exceeds and challenges modernity. The book begins at a global level, addressing the place of nostalgia within both global capitalism and anti-capitalism. In Chapter Two it turns to the contested role of nostalgia in debates about environmentalism and social constructionism. Chapter Three addresses ideas of Asia and India as nostalgic forms. The book then turns to more particular and local landscapes: the last three chapters explore the yearnings of migrants for distant homelands, and the old cities and ancient forests that are threatened by modernity but which modern people see as sites of authenticity and escape. The Geography of Nostalgia is a reader friendly text that will appeal to a variety of markets. In the university sector it is a student friendly, interdisciplinary text that will be welcomed across a broad range of courses, including cultural geography, post-colonial studies, landscape and planning, sociology and history.

**Screening Nostalgia** Christine Sprengler

2009-01-30 "In this fascinating in-depth study of the impact of nostalgia on contemporary American cinema, Christine Sprengler unpicks the history of the concept and explores its significance in theory and practice. She offers a lucid analysis of the development of nostalgia in American society and culture, navigating a path through the key debates and aligning herself with recent attempts to recuperate its critical potential. This journey opens up the myriad permutations of nostalgia across visual and material culture and their interface with cinema, with the 1950s emerging as a privileged moment. Four case studies (Sin City, Far From Heaven, The Aviator and The Good German) analyse the ways in which aspects of visual design such as props, costume and colour contribute to the nostalgic
aesthetic, allowing for both critical distance and emotion. Written with verve, style and impressive attention to detail, Screening Nostalgia is an invaluable addition to existing scholarship. It is also essential reading for anyone interested in the ways in which we access the past through cinema." · Pam Cook, Professor Emerita in Film, University of Southampton

Grindhouse Nostalgia David Church 2015-01-13

Too often dismissed as nothing more than 'trash cinema', exploitation films have become both earnestly appreciated cult objects and home video items that are more accessible than ever. In this wide-ranging new study, David Church explores how the history of drive-in theatres and urban grind houses has descended to the home video formats that keep these lurid movies fondly alive today. Arguing for the importance of cultural memory in contemporary fan practices, Church focuses on both the re-release of archival exploitation films on DVD and the recent cycle of retrosplotion films like Grindhouse, Machete, Viva, The Devils Rejects, and Black Dynamite. At a time when older ideas of subcultural belonging have become increasingly subject to nostalgia, Grindhouse Nostalgia presents an indispensable

What Nostalgia Was Thomas Dodman

2018-01-10 Nostalgia today is seen as essentially benign, a wistful longing for the past. This wasn't always the case, however: from the late seventeenth century through the end of the nineteenth, nostalgia denoted a form of homesickness so extreme that it could sometimes be deadly. What Nostalgia Was unearths that history. Thomas Dodman begins his story in Basel, where a nineteen-year-old medical student invented the new diagnosis, modeled on prevailing notions of melancholy. From there, Dodman traces its spread through the European republic of letters and into Napoleon's armies, as French soldiers far from home were diagnosed and treated for the disease. Nostalgia then gradually transformed from a medical term to a more expansive cultural concept, one that encompassed Romantic notions of the aesthetic pleasure of suffering. But the decisive shift toward its contemporary meaning occurred in the colonies, where Frenchmen worried about racial
and cultural mixing came to view moderate homesickness as salutary. An afterword reflects on how the history of nostalgia can help us understand the transformations of the modern world, rounding out a surprising, fascinating tour through the history of a durable idea.

Performing Nostalgia Susan Bennett 2013-11-05

In this trenchant work, Susan Bennett examines the authority of the past in modern cultural experience and the parameters for the reproduction of the plays. She addresses these issues from both the viewpoints of literary theory and theatre studies, shifting Shakespeare out of straightforward performance studies in order to address questions about his plays and to consider them in the context of current theoretical debates on historiography, post-colonialism and canonicity.

Culinary Nostalgia Mark Swislocki 2009-01-01

This book argues that regional food culture is intrinsic to how Chinese connect to the past, live in the present, and imagine their future. It focuses on Shanghai—a food lover's paradise—and identifies the importance of regional food culture
at pivotal moments in the city's history, and in
Chinese history more generally.

social and cultural history and geography of
Singapore. It demonstrates how the food we

**Corn Meets Maize** Lauren Baker 2013 Corn Meets Maize links the everyday practices of growing, cooking, and exchanging food in specific cultural, economic, and ecological contexts to broader social movements in Mexico and beyond. The local food networks Lauren E. Baker explores in Mexico are rich examples of contemporary agricultural and culinary transformations; they also reveal the impacts of neoliberal economic policies and new agricultural biotechnologies. Drawing on concrete examples of projects and people working to transform global food systems, she provides important insight into the complexities of food politics from field to fork.

**The Aesthetics of Nostalgia TV** Alex Bevan 2019-02-07 The Aesthetics of Nostalgia TV explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary
television. Specifically, it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change, and America's perceived decline as a global power. Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress, and the place of the baby boomer television suburb in American national memory. She contests theories on nostalgia that see it as stagnating, regressive, or a reversion to outdated gender and racial politics, and the technophobic longing for a bygone era; and, instead, argues that nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition. The book addresses how and why the shows construct the boomer era as a placeholder for gender, racial, technological, and declensionist discourses of the present. The book uses Mad Men (AMC, 2007-2015), Ugly Betty (ABC, 2006-2010), Desperate Housewives (ABC, 2004-2012), and film remakes of 1950s and 60s family sitcoms as primary case studies.

Performing Nostalgia: Migration Culture and
Creativity in South Albania Eckehard Pistrick
2017-07-05 Migration studies is an area of increasing significance in musicology as in other disciplines. How do migrants express and imagine themselves through musical practice? How does music help them to construct social imaginaries and to cope with longings and belongings? In this study of migration music in postsocialist Albania, Eckehard Pistrick identifies links between sound, space, emotionality and mobility in performance, provides new insights into the controversial relationship between sound and migration, and sheds light on the cultural effects of migration processes. Central to Pistrick’s approach is the essential role of emotionality for musical creativity which is highlighted throughout the volume: pain and longing are discussed not as a traumatising end point, but as a driving force for human action and as a source for cultural creativity. In addition, the study provides a fascinating overview about the current state of a rarely documented vocal tradition in Europe that is a part of the mosaic of Mediterranean singing traditions. It refers to the challenges imposed onto this practice by heritage politics, the dynamics of retraditionalisation and musical globalisation. In this sense the book
constitutes an important study to the dynamics of postsocialism as seen from a musicological perspective.

**Post-Communist Nostalgia** Maria Todorova 2012

Although the end of the Cold War was greeted with great enthusiasm by people in the East and the West, the ensuing social and especially economic changes did not always result in the hoped-for improvements in people's lives. This led to widespread disillusionment that can be observed today all across Eastern Europe. Not simply a longing for security, stability, and prosperity, this nostalgia is also a sense of loss regarding a specific form of sociability. Even some of those who opposed communism express a desire to invest their new lives with renewed meaning and dignity. Among the younger generation, it surfaces as a tentative yet growing curiosity about the recent past. In this volume scholars from multiple disciplines explore the various fascinating aspects of this nostalgic turn by analyzing the impact of generational clusters, the rural-urban divide, gender differences, and political orientation. They argue persuasively that this nostalgia should not be seen as a wish to restore the past, as it has otherwise been
understood, but instead it should be recognized as part of a more complex healing process and an attempt to come to terms both with the communist era as well as the new inequalities of the post-communist era.

Afro-Nostalgia Badia Ahad-Legardy 2021-04-12

The past as a building block of a more affirming and hopeful future. As early as the eighteenth century, white Americans and Europeans believed that people of African descent could not experience nostalgia. As a result, black lives have been predominately narrated through historical scenes of slavery and oppression. This phenomenon created a missing archive of romantic historical memories. Badia Ahad-Legardy mines literature, visual culture, performance, and culinary arts to form an archive of black historical joy for use by the African-descended. Her analysis reveals how contemporary black artists find more than trauma and subjugation within the historical past. Drawing on contemporary African American culture and recent psychological studies, Ahad-Legardy reveals nostalgia’s capacity to produce positive emotions. Afro-nostalgia emerges as an
expression of black romantic recollection that creates and inspires good feelings even within our darkest moments. Original and provocative, Afro-Nostalgia offers black historical pleasure as a remedy to contend with the disillusionment of the present and the traumas of the past. Nostalgia in Jewish-American Theatre and Film, 1979–2004 Ben Furnish 2005 Nostalgia, a bittersweet yearning for the past, is an important element in Jewish-American performances of the late twentieth century. Numerous plays and films of this time use nostalgia to engage Jewish, including Yiddish, cultural themes and images. Nostalgia offers audiences a window through which to examine past and current social changes. These include American Jews' departure from Europe to America, the city for the suburbs, Yiddish for English, as well as the civil rights, women's, peace, and gay and lesbian movements, and other transformations. These performances illustrate how theatre and film transmit culture from generation to generation and between one ethnic community and the wider American scene. A Taste of Nostalgia Abraham J. *Taste of the Nation* Camille Begin 2016-06-15

During the Depression, the Federal Writers' Project (FWP) dispatched scribes to sample the fare at group eating events like church dinners, political barbecues, and clambakes. Its America Eats project sought nothing less than to sample, and report upon, the tremendous range of foods eaten across the United States. Camille Begin shapes a cultural and sensory history of New Deal-era eating from the FWP archives. From "ravioli, the diminutive derbies of pastries, the crowns stuffed with a well-seasoned paste" to barbeque seasoning that integrated "salt, black pepper, dried red chili powder, garlic, oregano, cumin seed, and cayenne pepper" while "tomatoes, green chili peppers, onions, and olive oil made up the sauce", Begin describes in mouth-watering detail how Americans tasted their food. They did so in ways that varied, and varied widely, depending on race, ethnicity, class, and region. Begin explores how likes and dislikes, cravings and disgust operated within local sensory economies that she culls from the FWP’s vivid descriptions, visual cues, culinary expectations, recipes and accounts of restaurant
meals. She illustrates how nostalgia, prescriptive gender ideals, and racial stereotypes shaped how the FWP was able to frame regional food cultures as "American."

Looking for the Good War  Elizabeth D. Samet

In Looking for the Good War, Elizabeth D. Samet reexamines the literature, art, and culture that emerged after World War II, bringing her expertise as a professor of English at West Point to bear on the complexity of the postwar period in national life. She exposes the confusion about American identity that was expressed during and immediately after the war, and the deep national ambivalence toward war, violence, and veterans—all of which were suppressed in subsequent decades by a dangerously sentimental attitude toward the United States’ “exceptional” history and destiny. Samet finds the war's ambivalent legacy in some of its most heavily mythologized figures: the war correspondent epitomized by Ernie Pyle, the character of the erstwhile G.I. turned either cop or...
criminal in the pulp fiction and feature films of the late 1940s, the disaffected Civil War veteran who looms so large on the screen in the Cold War Western, and the resurgent military hero of the post-Vietnam period. Taken together, these figures reveal key elements of postwar attitudes toward violence, liberty, and nation—attitudes that have shaped domestic and foreign policy and that respond in various ways to various assumptions about national identity and purpose established or affirmed by World War II. As the United States reassesses its roles in Afghanistan and the Middle East, the time has come to rethink our national mythology: the way that World War II shaped our sense of national destiny, our beliefs about the use of American military force throughout the world, and our inability to accept the realities of the twenty-first century’s decades of devastating conflict.

The Operetta Empire Micaela Baranello

2021-05-25 "When the world comes to an end," Viennese writer Karl Kraus lamented in 1908, "all the big city orchestras will still be playing The Merry Widow." Viennese operettas like Franz Lehár's The Merry Widow were preeminent cultural texts during the Austro-Hungarian Empire's final years. Alternately hopeful and nihilistic, operetta staged contemporary debates about gender, nationality, and labor. The Operetta Empire delves into this vibrant theatrical culture, whose creators simultaneously sought the respectability of high art and the popularity of low entertainment. Case studies examine works by Lehár, Emmerich Kálmán, Oscar Straus, and Leo Fall in light of current musicological conversations about hybridity and middlebrow culture.

Demonstrating a thorough mastery of the complex early twentieth-century Viennese cultural scene, and a sympathetic and redemptive critique of a neglected popular genre, Micaela Baranello establishes operetta as an important element of...

*A Taste for Brown Bodies* Hiram Pérez 2015-10-30 Neither queer theory nor queer activism has fully reckoned with the role of race in the emergence of the modern gay subject. In *A Taste for Brown Bodies*, Hiram Pérez traces the development of gay modernity and its continued romanticization of the brown body. Focusing in particular on three figures with elusive queer histories—the sailor, the soldier, and the cowboy—Pérez unpacks how each has been memorialized and desired for their heroic masculinity while at the same time functioning as agents for the
expansion of the US borders and neocolonial zones of influence. Describing an enduring homonationalism dating to the “birth” of the homosexual in the late 19th century, Pérez considers not only how US imperialist expansion was realized, but also how it was visualized for and through gay men. By means of an analysis of literature, film, and photographs from the 19th to the 21st centuries—including Herman Melville’s Billy Budd, Anne Proulx’s “Brokeback Mountain,” and photos of abuse at the Abu Ghraib prison—Pérez proposes that modern gay male identity, often traced to late Victorian constructions of “invert” and “homosexual,” occupies not the periphery of the nation but rather a cosmopolitan position, instrumental to projects of war, colonialism, and neoliberalism. A Taste for Brown Bodies argues that practices and subjectivities that we understand historically as forms of homosexuality have been regulated and normalized as an extension of the US nation-state, laying bare the tacit, if complex, participation of gay modernity within US imperialism.

Following nostalgia’s troubled relations to the philosophical project of the Enlightenment, Illbruck’s study builds a cumulative argument about nostalgia’s modern significance that often revises and thoroughly enriches our understanding of cultural, literary, and intellectual history. Illbruck concludes with an attempt at a reinterpretation and defense of nostalgia, which seduces us to read and think with, rather than against, nostalgia’s wistful yearning for the past.

*The Future of Nostalgia* Svetlana Boym

2008-08-05 Can one be nostalgic for the home one never had? Why is it that the age of globalization is accompanied by a no less global epidemic of nostalgia? Can we know what we are nostalgic for? In the seventeenth century, Swiss doctors believed that opium, leeches, and a trek through the Alps would cure nostalgia. In 1733 a Russian commander, disgusted with the debilitating homesickness rampant among his troops, buried a soldier alive as a deterrent to nostalgia. In her new book, Svetlana Boym develops a comprehensive approach to this elusive ailment. Combining personal memoir, philosophical essay, and historical analysis, Boym explores the spaces of collective nostalgia that connect national biography and personal self-fashioning in the twenty-first century. She guides us through the ruins and construction sites of post-communist cities -- St. Petersburg, Moscow, Berlin, and Prague -- and the imagined homelands of exiles-Benjamin, Nabokov, Mandelstam, and
Brodsky. From Jurassic Park to the Totalitarian Sculpture Garden, from love letters on Kafka's grave to conversations with Hitler's impersonator, Boym unravels the threads of this global epidemic of longing and its antidotes.

**The Colors of Summer** Takoda Patterson

2018-07-12 Summer is a season that comes every year like a birthday, holiday, an anniversary. Every year we get to celebrate and bathe in the memories. Sometimes, we create new ones. The Colors of Summer is a taste of nostalgia with a hint of new beginnings.
