Pierre Larousse 1878
Vous restez muet comme une carpe devant un verre de vin ? Apprenez à parler du vin, à le marier et surtout, à l'aimer ! (avec modération). " Que pensez-vous de ce vin ? ", " Quels sont les types de vins que vous aimez ? ": À moins d'être un amateur averti, il y a fort à parier que vous aurez des difficultés à répondre à ces questions. Le contraire serait surprenant. Car si vous avez la gênante impression d'être une buse quand il s'agit de décrire un vin, c'est que vous êtes tout simplement normal. Oubliez vos complexes grâce à Ophélie Neiman qui vous aidera à trouver les bons mots. Découvrez le monde du vin – et comment un simple grain de raisin donne un millésime hors pair –, apprenez à marier les mets et les vins sans fausse note – et pourquoi Bernard le homard aime les bâtards –, commencez votre cave grâce à des conseils avisés pour petits budgets.

French Sentences Vol.3: English & French

THIS EDITION: The dual-language text has been
arranged into sentences for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing grammar, and as a precursor to more advanced bilingual editions. Volume 3 in this series takes a more in depth look at French grammar. It also includes some of the basic verb charts. Like in the first two volumes, the text uses a bilingual sentence structure to tackle grammar. It can be used as a primary source for grammar, or as a way for reinforcing an alternative text on grammar. However, it can also be read in a relaxed manner without endeavouring to analyse to excess, thus learning key grammatical concepts in a somewhat passive manner. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French A methodology for getting the most out of this bilingual format is explained in the book’s Foreword. Once a student has studied the basics, a suitable book about basic grammar can be helpful. The suggestion is that any alternative grammar book be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the grammar book you feel you can digest — maybe even the whole book — skipping over what is not easily understood. Then, read through a portion of text in this book, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Then, depending on your inclination, return to the grammar book (or your basic French book), or move on to lengthier bilingual text — like in 2Language Books texts, for example —, or find some suitable French text: a simple novel, a French news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line resources that go further — dictionaries with a verb conjugation ‘search’ option. Many basic language
books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources (as digital content), an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on ‘premium’ content and resources. Spaces and Identities in Border Regions Christian Wille 2015-11-30 Spatial and identity research operates with differentiations and relations. These are particularly useful heuristic tools when examining border regions where social and geopolitical demarcations diverge. Applying this approach, the authors of this volume investigate spatial and identity constructions in cross-border contexts as they appear in everyday, institutional and media practices. The results are discussed with a keen eye for obliquely aligned spaces and identities and relinked to governmental issues of normalization and subjectivation. The studies base upon empirical surveys conducted in Germany, France, Belgium and Luxembourg.

A Concordance to the French Poetry and Prose of John Gower
R. F. Yeager 2012-01-01
That the poet John Gower was a major literary figure in England at the close of the fourteenth century is no longer in question. Scholarly attention paid to him and to his work over the past twenty-five years has redeemed him from an undeserved obscurity imposed by the preceding two hundred. The facts of his life and career are now documented, and recent critical assessment has placed his achievement most accurately alongside Chaucer's, Langland's, and the Gawain-poet's. Unique among his contemporaries, all of whom undoubtedly read and used French in some measure, Gower alone has left us a significant body of verse and prose in Anglo-Norman; chiefly, the twelve-stanza poem Mirour de l-Omme, the Cinkante...
