The Foundations of Morality

Stanley Leathes 1882

Authentic Christianity Richard W. Tow 2018-12-13 “In a time when biblical literacy is waning and values are less than absolute, Authentic Christianity is a helpful and needful book for today’s church. Consisting of thirty chapters, a conclusion, a bibliography, and indexes, it moves through the first Epistle of John segment by segment, mining biblical guidelines and blessings at every corner” (Ben Aker, PhD, professor emeritus of New Testament and exegesis, Assemblies of God Theological Seminary). “I want this book in the hands of every one of my students and ministry leaders. The church is at a crossroads wherein we are teetering along a slippery slope that has ensnared a generation with a gospel unlike that preached by Christ and his disciples” (Pastor Troy D. Bohn, director of Raven Ministries International Training Center). “I highly recommend Dr. Richard Tow’s Authentic Christianity for pastors and anyone serious about studying 1 John in a deeper way. Dr. Tow presents practical ideas and lessons for how twenty-first-century Christians can protect our hearts and minds against modern-day false teachings, how to sincerely and biblically live our lives with love and a clear conscience” (Dr. Donald W.
Eubank, chaplain; retired lieutenant colonel, US Army; endorsing agent, military VA chaplains; Foursquare Gospel Church). “This book should be required reading for anyone in ministry. The church is slowly apostatizing due to its ignorance of what constitutes a genuine biblical believer. John’s epistle, more than any other New Testament book, differentiates between the true child of God and those who are merely claiming to be one. John’s bottom line is ‘These things I have written . . . in order that you may know that you have eternal life.’ Find out what John means by ‘know.’ It’s a matter of life or death” (David Ravenhill, author and itinerant teacher, Siloam Springs, Arkansas).

**Creating a Successful Christian Marriage**
Cleveland McDonald 2008-04-01

This classic text, written by a father-and-son team, looks at the nuclear family as a social institution and provides guidance for interaction and adjustment during dating, engagement, and early marriage. The authors treat such practical matters as communicating, working through interpersonal differences, and growing in relationships within the family. They also discuss the impact of cultural expectations on family patterns and define ideal family roles developed in Scripture. Other topics covered include parenting, extended family
relationships, finances, and nontraditional families. Now available in paperback.

*Smoke on the Mountain* Joy Davidman 1954-01-01 The Christian reader is encouraged to obey the Commandments with a positive attitude rather than fearfulness.

*The English Catalogue of Books [annual].* 1917 Vols. 1898- include a directory of publishers.

*Lewis Carroll Among His Books* Charlie Lovett 2015-01-09 Charles Lutwidge Dodgson—known better by his pseudonym, Lewis Carroll—was a 19th century English logician, mathematician, photographer, and novelist. He is especially remembered for his children’s tale *Alice’s Adventures in Wonderland* and its sequel, *Through the Looking Glass*. By the time of Dodgson’s death in 1898, *Alice* (the integration of the two volumes) had become the most popular children’s book in England. By the time of his centenary in 1932, it was perhaps the most famous in the world. This book presents a complete catalogue of Dodgson’s personal library, with attention to every book the author is known to have owned or read. Alphabetized entries fully describe each book, its edition, its contents, its importance, and any particular relevance it might have had to Dodgson. The library not only provides a plethora of fodder for further study on Dodgson, but also reflects the Victorian world of the second half of the 19th century, a time of unprecedented investigation, experimentation, invention, and imagination. Dodgson’s volumes represent a vast array of academic interests from Victorian England and beyond, including homeopathic medicine, spiritualism, astrology, evolution, women’s rights, children’s literature, linguistics, theology, eugenics, and many others. The catalogue is designed for scholars seeking insight into the mind of Charles Dodgson.

**America Versus the Ten Commandments** Michael K. Abel 2018-07-18 Ongoing debates about gay marriage, abortion, religious freedom, and many other issues remind us that a culture war is now being waged over what it means to be moral in America, calling into question biblical ideals that have shaped American society for hundreds of years. Some claim that the moral traditions of the past are oppressive and outdated while others believe they are the only hope to save a morally declining nation. It is in this context that the question motivating this book emerged: To what extent do Americans keep the Ten Commandments, sometimes called the Decalogue? How prevalent in America are adultery, dishonesty, theft, murder, coveting, and other behaviors prohibited in Judeo-Christian tradition? How much do Americans really focus on God, honor their parents, and keep the Sabbath Day holy? This book explores the historical context and meaning of each commandment in order to compare ancient understandings of right and wrong to those of modern America and then examines its compliance. Analysis of adherence to each of the Ten Commandments, using data collected from tens of thousands of Americans, paints an engaging picture of their commitment to the morals of the Decalogue. In contrast to most books exploring moral issues, this one does not tell readers what to think about the evidence. Rather, it encourages them to carefully consider the information and come to their own conclusions about the moral virtue or depravity of US society. Readers may use the evidence
found in this book to satisfy curiosity, settle bets, shape public policy, create sermons, stimulate conversation, or, even better, to understand human nature. They will come away equipped with knowledge that will encourage self-reflection and increased understanding of twenty-first century American morality.

The Ten Commandments Robert William Dale 1884
*God's Psychiatry* Charles L. Allen 1984-06-01 With more than a million and a half copies sold, this classic book shows you how to apply ancient biblical truths for a happier, healthier life today.

**God's Psychiatry** Charles Livingstone Allen 1953 This is a book of remedies -- tried and true -- for the sick in soul and spirit. As a doctor's prescriptions can be filled at a druggist's counter, the "prescriptions" can be filled at the always-open healing courts of Heaven, and are always renewable. God is both "doctor" and "druggist", and He bids the soul-sick to come, to come without fee. The over-all treatment is identical to that which so many psychiatrists recommend: a return to faith.

**The English catalogue of books** 1873

**The Ten Commandments** Henry Sloane Coffin 1916 The outbreak of the Great War in the summer of 1914 caused much re-examination among many in the western church. The following sermons were preached in the autumn and winter of 1914-1915. They were first printed in pamphlet form and then collected into this book.

**The English Catalogue of Books: v. [1]. 1835-1863** Sampson Low 1873

**Bookseller** 1896 Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series.
