The volume focuses on the effects of war on the civilian infrastructure as well as efforts to sustain a fragile peace, their newly surrendered adversaries seethed with anger and confusion at the sight of Union troops occupying their towns and former slaves celebrating freedom. In this dramatic new history of the weeks and months after Appomattox, Caroline E. Janney explains that Lee's surrender was less an ending than a beginning, and that the real movement toward peace had already begun in the weeks and months after Appomattox. Civil War Talks George S. Virginians at War: John Gregory Selby 2002 "This book offers a unique mosaic of the Civil War through the eyes of individuals who lived and served in various parts of the Commonwealth. Between them, these men and women reveal the war as it was lived and experienced, not just on the battlefield but throughout the Confederacy as well. Throughout this collective ordeal we see the human reaction to war and a sense of hope in the "cause" until it was lost." - Brian Steel. Wills, Professor of University of Virginia's College at Wise.

Photographs of black generation, this comprehensive study details the experiences of the black men, women, and children who sustained war injuries. He returns to this material in a later section of the book.

American Civil War follows four peoples lives during the American Civil War: John S. Mosby, Charles Russell Lowell, Laura Ratcliffe, and James Robinson. Col. John S. Mosby was a Confederate officer from Virginia, assigned to lead guerrilla activities outside the city of Washington. His mission was to keep the Union soldiers stationed there rather than fighting in the field against the army of Northern Virginia under General Robert E. Lee. Charles Russell Lowell of Massachusetts was a Harvard graduate from a prominent abolitionist family. He joined the Union Army, eventually becoming the colonel of the Second Massachusetts Cavalry. He was sent to Virginia to capture or kill Mosby. Laura Ratcliffe was a young Southern lady living in Northern Virginia. She supported her home state of Virginia during the war in any way she could, including spying for General Mosby. James Robinson was an African-American man living in his family in Manassas, Virginia. The land that he owned and lived on would become the central part of the battleground for two of the major battles of the war. We once met by chance: four life stories during the American Civil War follow four peoples lives during the American Civil War: Virginia's postwar experience is also documented as well.
