in Africa, Lentz shows how politics and power play decisive roles in determining access to scarce resources and in changing notions of who belongs and who is a stranger. “Illuminates the distinctive historical trajectory of land claims, authority, and belonging among the Dagara and Sisala peoples of the Black Volta region, and locates this specific case history within broader debates over transformation in access, use, and control over land in colonial and postcolonial Africa.” —Sara Berry, Johns Hopkins University “Important in the sense that it constitutes a detailed historical study of how complex narratives of belonging and notions of property interlock... It is academic work of the first order.”

International Human Rights Law Manisuli Ssenyonjo 2016-04-22 This timely and valuable book explores the development of international human rights law over the last six decades. The volume brings together leading experts to reflect on different aspects of human rights law, not only considering and evaluating the developments so far, but also identifying relevant problems and proposing relevant possible perspectives for the continued positive future development of human rights law. The book is international in perspective, both in scope and context, and covers developments in the international protection of human rights since the adoption of the UDHR in 1948. The developments considered include the United Nations system of protecting human rights as well as regional human rights systems in Africa, America and Europe. It also considers some key themes relevant to human rights including globalisation, protecting human rights in emergency situations and trade sanctions, the development of human rights NGOs, and many others. The book will be an invaluable resource for students, academics and policy-makers working in the field of international human rights.

The First Wife Paulina Chiziane 2016-08-09 After twenty years of marriage, Rami discovers that her husband has been living a double—or rather, a quintuple—life. Tony, a senior police officer in Maputo, has apparently been supporting four other families for many years. Rami remains calm in the face of her husband’s duplicity and plots to make an honest man out of him. After Tony is forced to marry the four other women—as well as an additional lover—according to polygamist custom, the rival lovers join together to declare their voices and demand their rights. In this brilliantly funny and feverishly scathing critique, a major work from Mozambique’s first published female novelist, Paulina Chiziane explores her country’s traditional culture, its values and hypocrisy, and the subjection of women the world over.
