Lobbying for Change Alberto Alemanno 2017-05-01 'We need effective citizen-lobbyists – not just likers, followers or even marchers – more than ever. I have no hesitation in lobbying you to read this book.' Bill Emmott, former editor in chief, the Economist Many democratic societies are experiencing a crisis of faith. Citizens are making clear their frustration with their supposedly representative governments, which instead seem
driven by the interests of big business, powerful individuals and wealthy lobby groups. What can we do about it? How do we fix democracy and get our voices heard? The answer, argues Alberto Alemanno, is to become change-makers – citizen lobbyists. By using our skills and talents and mobilizing others, we can bring about social and political change. Whoever you are, you’ve got power, and this book will show you how to unleash it. From successfully challenging Facebook’s use of private data to abolishing EU mobile phone roaming charges, Alberto highlights the stories of those who have lobbied for change, and shows how you can follow in their footsteps, whether you want to influence immigration policy, put pressure on big business or protect your local community.

Regulating lobbying
Raj Chari 2019-02-28
Governments worldwide are developing sunshine policies that increase transparency in politics, where a key initiative is regulating lobbyists. Building on the pioneering first edition, this book updates its examination of all jurisdictions with regulations, from the Americas, Europe, Middle East, Asia, and Australia. Unlike any book, it offers unique insights into how the regulations compare and contrast against each other, offering a revamped theoretical classification of different regulatory environments and situating each political system therein. This edition innovatively considers different measurements to capture the robustness of lobbying laws in terms of promoting transparency and accountability. And, based on the authors’ experience of advising governments globally, it closes with a no-nonsense guide on...
how to make a lobbying law. This is of value to policymakers seeking to introduce or amend regulations, and lobbyists seeking to influence this process.

The Nonprofits' Guide to Internet Communications Law Bruce R. Hopkins 2002-11-15 Invaluable guidance on the most important legal issues facing nonprofits today. Internet communication is the lifeblood of countless nonprofit organizations, yet there exists no specific law to provide for its regulation. Without solid legal guidance, nonprofits risk not only missing out on the unlimited opportunities that the Internet has to offer, but also jeopardizing their tax-exempt status. The Nonprofits' Guide to Internet Communications Law analyzes and explains the laws applicable to Internet communications by nonprofit organizations. Nonprofit law expert Bruce Hopkins writes that with Congress and government agencies reluctant to create new law, it will ultimately be up to the courts to determine the future of Internet law affecting nonprofit organizations. Extrapolating from the underlying principles of existing law, Hopkins addresses the legal ramifications of Internet business activities, charitable-giving administration, fundraising programs, lobbying, political campaign activities, and more. The Nonprofits' Guide to Internet Communications Law proves an unparalleled resource for this emerging field.
