Broadening Horizons
International Exchanges In
Social Work

Right here, we have countless books Broadening Horizons International Exchanges In Social Work and collections to check out. We additionally give variant types and afterward type of the books to browse. The all right book, fiction, history, novel, scientific research, as with ease as various new sorts of books are readily welcoming here.

As this Broadening Horizons International Exchanges In Social Work, it ends up beast one of the favored ebook Broadening Horizons International Exchanges In Social Work collections that we have. This is why you remain in the best website to look the incredible books to have.

The British National Bibliography Arthur James Wells 2005

The Routledge Handbook of Social Work Field Education in the Global South Rajendra Baikady 2022-07-08 This handbook provides an authoritative account of social work field education in the global south. It presents an overview of various aspects of theory and practice modules in the social work curriculum and advances in research in social work field education in the developing world through in-depth analyses
and global case studies. Key features: • Discusses critical issues and new directions in the theory and practice of social work field education, challenges in field work education, decolonising field work training, developing competent social work graduates, aligning fieldwork with cultural practices in indigenous communities, the idea of clinical social work, and a comparative analysis of social work field supervision. • Integrates theory and practice of social work field education for students and teachers from diverse geographical and cultural contexts across the global south, including countries from South Asia and Asia, Africa, and Latin America and the Caribbean, covering India, Bangladesh, Pakistan, Nepal, Sri Lanka, China, Georgia, Philippine, Turkey, Papua New Guinea, Eswatini, Republic of Trinidad & Tobago, Kenya, Nigeria, South Africa, Botswana, Chile, and Barbados. • Brings together international comparative perspectives on field work education in social work from leading experts, social work educators, and social work professionals. This handbook will be an essential resource for scholars and researchers of social work, development studies, social anthropology, sociology, education, South Asian studies, and Global South studies. It will also be useful to educators and practitioners of social work in global institutions of higher studies as well as civil society organisations.

Problèmes sociaux - Tome IV Henri Dorvil 2011-07-11T00:00:00-04:00 Le monde entier est perclus d'injustices sociales criantes. Nécessité donc d'intervention sociale collective, de mouvements sociaux de revendications, de zones de conflit entre le monde communautaire et l'État. Prévention de conditions de risque, alphabétisation, rationalités divergentes, féminisme, travail social international. Accommodements raisonnables, fracture numérique, investigation scientifique chez les travailleuses du sexe. Tel est le menu que propose la collection « Problèmes sociaux et interventions sociales » dans ce tome IV de Problèmes sociaux.

Revitalising Communities in a Globalising World Lena Dominelli 2018-02-06 Revitalising Communities in a Globalising World explores the opportunities and constraints that the dynamics of globalisation present for human development in a range of different countries and situations. Arguing that globalisation is currently a system of organising social relations along neoliberal lines, this timely volume examines practical examples of how people respond to significant social changes in their communities. The idea of communities is deconstructed to show that globalisation has collapsed the boundaries of time, space and place in ways that have exacerbated inequalities, at the same time giving rise to unparalleled riches for some. The book encompasses a number of
case studies that speak to policymakers, practitioners, educators and students interested in studying globalisation and making the most of its potential for change.

*Handbook of International Social Work* Lynne M. Healy 2012

Global knowledge is increasingly essential for all aspects of social work. Today’s professionals respond to concerns including permeable borders, the upheavals of war, displaced workers, natural disasters, international adoption, and human trafficking. Everywhere, social workers work with service users and colleagues from diverse cultures and countries. Globally relevant concepts such as human rights, development, and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas. This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike.

The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice, policy, and research. Chapters systematically map the key issues, organizations, competencies, training and research needs, and ethical guidelines central to international social work practice today, emphasizing the linkages among social work, development, and human rights practice. In-depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues, regardless of whether the work is done at home or abroad. Representing all regions of the world, a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state-of-play of international social work today.

**Anti-Racist Practice in Social**
**Work** Kish Bhatti-Sinclair  
2011-02-15 A critical introduction to key debates about race and racism, this new addition to the Reshaping Social Work series examines race as a social construct. It addresses the origins of anti-racist practice and analyses practical issues to provide a blueprint for anti-racist practice within social work.

**Reconfiguring Citizenship**  
Mehmoona Moosa-Mitha  
2016-03-23 Citizenship as a status assumes that all those encompassed by the term 'citizen' are included, albeit within the boundaries of the nation-state. Yet citizenship practices can be both inclusionary and exclusionary, with far-reaching ramifications for both nationals and non-nationals. This volume explores the concept of citizenship and its practices within particular contexts and nation-states to identify whether its claims to inclusivity are justified. This will show whether the exclusionary dimensions experienced by some citizens and non-citizens are linked to deficiencies in the concept, country-specific policies or how it is practised in different contexts. The interrogation of citizenship is important in a globalising world where crossing borders raises issues of diversity and how citizenship status is framed. This raises the issue of human rights and their protection within the nation-state for people whose lifestyles differ from the prevailing ones. Besides highlighting the importance of human rights and social justice as integral to citizenship, it affirms the role of the nation-state in safeguarding these matters. It does so by building on Indigenous peoples' insights about linking citizenship to connections to other people and the environment and arguing for the inalienability and portability of citizenship rights guaranteed collectively through international level agreements.
These issues are of particular concern to social workers given that they must act in accordance with the principles of democracy, equality and empowerment. However, citizenship issues are often inadequately articulated in social work theory and practice. This book redresses this by providing social workers with insights, knowledge, values and skills about citizenship practices to enable them to work more effectively with those excluded from enjoying the full rights of citizenship in the nation-states in which they reside.

**War, Violence and Social Justice**

Masoud Kamali 2016-03-09 This book analyses the role of war and violence (in both its physical and symbolic forms) for social work in a time of neoliberal globalisation from a social justice perspective. It argues that the consequences of wars, in both their old and new forms, and the exercise of symbolic violence for the practices of social work at national and global levels have been ignored. This work explores the relationship between recent neoliberal and global transformations and their consequences for intensifying ‘new wars’ and conflicts in non-Western countries on the one hand, and the increasing symbolic violence against marginalised people with immigrant and non-Western background in many Western countries, on the other. The analytical approach of the book, based on the theories of multiple modernities and symbolic violence, is unique since no other work has applied such theoretical perspectives for analysing inequalities in relation to the condition of lives of non-Western people living in Western and non-Western countries. This is a necessary contribution for social work education and research since the discipline needs new theoretical perspectives to be able to meet the new challenges.
raised by recent global transformations and neoliberal globalisation.

*The Value Base Of Social Work And Social Care* Barnard, Adam 2008-10-01 This text focuses upon an array of key concepts historically associated with the activities of the 'helping professions' but including thematic explorations of poverty, inequality, user perspectives; and of the essential components of the helping relationship, such as empathy, compassion and conviction.

*Internationaler Austausch in der Sozialen Arbeit* Elke Kruse 2015-03-27 Das Thema des internationalen Austauschs in der Sozialen Arbeit steht im Zentrum dieses Bandes: in seinen verschiedenen Facetten und unter Einbeziehung der historischen Dimension. Angesichts zurzeit allseits präsenter Forderungen nach Internationalität und Sammlung internationaler Erfahrungen...

The McDonaldization of Social Work Donna Dustin 2016-02-17

Based upon George Ritzer’s McDonaldization of Society thesis and incorporating aspects of social theory, this book examines the introduction of care management to social work practice. Donna Dustin analyzes care management as an example of the managerial application of efficiency, calculability, predictability and control to social work practice. These principles, put to good use in organizations that produce tangible outputs at a profit, are being increasingly applied in non-profit public sector organizations where the outcomes require intangibles such as professional relationships. The author examines whether the McDonaldization process heightens dilemmas such as cost versus rights for professionals working in the social services. Using social theory to frame her research with care managers and their managers in the UK, the author examines the day-to-day implications of care management for social work practice and questions whether the construction of service users as customers contributes to empowering practice. The book's in-depth analysis of the policy background, implementation and practice of care management will resonate with social workers in other national contexts, such as the US, where the care management model has been introduced.

focuses on three key issues of international social work: - on international dimensions of social problems and how social work practice can deal with these challenges, - on cultural issues social workers have to think of when practicing, teaching and developing social work on an international level and finally - on aspects of international approaches in social work education. The authors are practicing and teaching social work in several countries and their personal and educational background allowed them to gain a profound experience on international social work. This makes the authors not only writing about international perspectives but also from an international perspective.

**Social Work in a Globalizing World** Lena Dominelli

2010-12-28 Written by a leading social work academic whose work is internationally renowned, this book confronts contemporary challenges facing social workers in relation to globalization and the rise of international global problems.

**The SAGE Handbook of International Social Work** Karen H Lyons 2012-05-03 Social work is a profession that is increasingly involved with issues which have a global dimension. This Handbook tackles the global/local aspect of social work in its various forms and interrogates the key concerns that societies are facing through an international lens. The contributors show that, with an appreciation of commonalities and differences, local practices and appropriate forms of international activity can be better developed. Areas covered include: - Analysis of 'International social work' - Globalisation and indigenisation - Social justice and human rights - Poverty and livelihoods - Ecological issues - Migration - Education, theory, research and practice - Social work in different
settings - Religion and spirituality - Responses to disasters and conflicts - Life course perspectives - Regional perspectives - Future directions

With a truly international range of contributions, the Handbook incorporates perspectives from Asia, Africa, Europe, Australasia, the Middle East and the Americas. It will be an invaluable resource for undergraduates, postgraduates, researchers and academics working in the fields of social work, social welfare, human services, and community development worldwide, as well as service providers and policy makers in the international arena.

**European Social Work – A Compendium** Fabian Kessl
2019-11-25 The publication takes account of the fundamental developments transforming social work in Europe at the beginning of the 21st century. A European standard of social work has already emerged, but models for future European social work are absent. Therefore the compendium gives an overview of the current transformation process for the first time, discusses the visible and invisible changes and maps out where social work is positioned in the emerging post-welfare states.

**Social Work in Times of Neoliberalism** Vishanthie Sewpaul 2004 Tracing the social, political, economic and ideological factors that have impacted the development of social work from both a global and a local perspective, the authors identify the historical and contemporary conflicting and competing strands.

**Yearbook of Varna University of Management** 2018-06-25 This volume includes scientific articles and reports from the 14th International Scientific Conference on the topic of „The Modern Science, Business and Education“, 3rd-5th July 2018, Dobrich, Bulgaria

**Professionalizing Your English**
Language Teaching Christine Coombe 2020-10-22 Written by leading experts in the field of TESOL, this book explores the literature on various topic areas and demonstrates how teachers can increase their levels of professionalism by acquiring some general and field-specific strategies. Being a teaching professional is not simply about having the right teaching qualifications and good academic standing, it involves a commitment to being innovative and transformative in the classroom and helping both students and colleagues achieve their goals. A dictionary definition of professionalism reads as follows: professionalism is the conduct, aims, or qualities that characterize or mark a profession or a professional person; and it defines a profession as a calling requiring specialized knowledge and often long and intensive academic preparation (Merriam-Webster, 2013). However, according to Bowman (2013), professionalism is less a matter of what professionals actually do and more a matter of who they are as human beings. Both of these views imply that professionalism encompasses a number of different attributes, and, together, these attributes identify and define a professional. The book is primarily intended for teachers at all levels and in all contexts who are interested in improving their professionalism and developing strategies that can take them to higher levels in the field of TESOL/ELT.

Globalization and International Social Work Malcolm Payne 2016-04-22 Globalization challenges social work with constant social change, making a social worker's job and the task of social work education more complex and uncertain. Post-modern thinking suggests that social workers must learn to cope with complexity in ways that are
in tension with the increasingly managerialist organization of the social services. The authors explore and question the concepts of 'postmodern', 'international' and 'global' in light of growing interest in international social work in the early 21st century. Emphasizing the importance of critical reflection, they argue that educational colonization can be challenged and effective anti-discriminatory and pro-equality practice and education promoted. Each chapter provides direct examples of how students and academics can apply these ideas in practice and in their learning, and how they can respond to and influence the challenges and changes that are taking place. The authors also examine educational and practice issues arising from attempts to incorporate international understanding into national practice and education systems. The book is designed to be stimulating to academics interested in international social work while remaining accessible to practitioners and students without international experience.

Reflecting on Social Work - Discipline and Profession
Karen Lyons 2017-03-02
Social work has always been a contested activity and its status as an academic discipline remains uncertain. There is currently renewed interest in the theoretical and research dimensions of social work, at a time when significant changes in the broad social, political and economic context in which practice takes place require a re-evaluation of social work's role and a re-examination of its identity. This timely book brings together leading social work academics to examine the state of social work at the beginning of the 21st century. With their focus on the relationships between research, theory and practice, they reflect critically on the nature of social work as a discipline in higher education.
education and the importance of this to the profession as a whole. The book represents an exploratory conversation among social work academics about the current state and future aspirations of the discipline and the profession. It aims to stimulate wider debate about the dominant constraints and opportunities for social work in the 21st century.

**Qualitative Research** David Silverman 2010-11-17

Lecturers, click here to request an electronic inspection copy - no waiting for the post to arrive! This hugely successful textbook has been fully updated and revised to make it even more accessible and comprehensive than previous editions. New chapters have been added on a range of key topics, including grounded theory, research ethics and systematic review. This book draws on a stellar list of leading qualitative researchers, each of whom is writing on their own specialized area in qualitative research, but doing so in a way that is clear and accessible to students and those new to the field of qualitative methods. All chapters also have added features - such as internet links, questions for readers and recommended readings. Alongside its engaging and accessible style, these new features make Qualitative Research the ideal textbook for all students working within this field. This is a comprehensive and accessible first text on qualitative methods that boasts a who's who of leading qualitative methodologists and is a must-have book for any student involved in doing research.

**Anti-Racist Social Work** Lena Dominelli 2017-09-21

Fully revised and updated throughout, this fourth edition of Lena Dominelli's influential book retains its reputation as the go-to text on anti-racist social work practice. As racism continues to present a problem in
contemporary society: the growth of the Far Right, the rise of Islamophobia and the victory of the Brexit camp in the EU referendum, the need to address racist attitudes and behaviour that affect diverse groups of people in the UK remains an urgent one. A truly classic text, Anti-Racist Social Work has been providing students and practitioners with a comprehensive guide to the debates and practices on racism in contemporary society since 1988. New to this Edition: - Includes a brand new chapter on 'Social Work Across Borders' - Incorporates discussion of recent events and developments to encourage critical thinking and analyses their effect on practice - Offers examples from across the globe at both micro and macro level

**Working with Ethnic Minorities and Across Cultures in Western Child Protection Systems** Pooja Sawriker 2016-12-16

Multiculturalism in Western countries continues to grow, but responsiveness to it with culturally sensitive research, policy and practice has been slower to develop. This lag could be accused of enabling institutional racism – that is, culturally insensitive practices and policies can cause or perpetuate harm to non-mainstream children and families, the very thing that child protection systems are set up to address. Thus, it is critical that the field has a resource that clearly and comprehensively outlines the characteristics of cultural competency in the child protection system when working with ethnic minorities and across both mainstream and non-mainstream cultures, so as to equally protect the safety of all children. Unlike previous research, this book addresses discrete and relevant practice issues - how to work effectively with interpreters, whether or not to match caseworkers and
clients based on ethnic background and what to consider when making plans for children in the out-of-home-care (OOHC) system - with best practice guidelines. This book will be required reading for all social work students, academics and practitioners whose work engages with issues of cultural competency.

Towards Glocal Social Work in the Era of Compressed Modernity Timo Harrikari 2018-08-16 This book addresses the change of social work in the frame of modernisation. Through Mary Richmond’s classical idea of social work, the book seeks to set current societal trends affecting social work into the context of a long historical line, opening spaces for the new debates within the social work discipline as well as proposing and taking some new directions in the current era of compressed modernity. From the viewpoint of social work, there still is an individual in a situation, however, the situation has profoundly changed during the past hundred years. Divided into seven chapters, topics covered include, firstly, the rethinking of Richmond’s original idea, revisiting the modernisation theories and social transformations as well as discussion on the social work theories and mandates according to the chosen classics. Secondly, the book continues with sketching the pillars of compressed modernity and rethinking the global and local relations. During the era of glocalisation, polycentrism, digitalisation and hybridisation, the previous conceptualisations of social theory have to be reconsidered. Finally, a proposal for glocal social work vision is represented by setting questions which should be taken under scrutiny. Academics, researchers, practising social workers and students of social work...
work, as well as of social policy, administration, social law and other social sciences, will find this book to be an essential text for understanding the current societal changes, trends and tendencies. The book provides a lot of information for policymakers and citizens interested in the background knowledge for the contemporary societal situation.

Social Work in a Corporate Era
Linda Davies 2017-09-29
A striking new feature of the welfare systems in many Western countries is the extent to which market relations have permeated social services. Conceptions of 'risk management' now dominate the way parents and children are responded to, while new technologies aim to 'measure' their relationship with state service providers.

Bureaucratic control is increasing, while resources are reduced. These factors have led to the demise of the traditional role of the social worker as one who engages with the client in a supportive encounter. Professional competence within social work is increasingly tied to 'mastering' scientific knowledge and new technical skills. The result of collaboration between authors from Canada, Britain and Australia, Social Work in a Corporate Era offers a critical overview of these developments and their implications. It provides a re-evaluation of the assumptions and practices of the critical social work tradition and explores the possibility of rebuilding an 'emancipatory' social work. The authors aim to disentangle the debate between Marxism, feminism and anti-racism, in the context of both postmodern challenges and the corporate restructuring of the welfare state. Calling for the development of a
new politics of social work practice, this book addresses many of the urgent issues facing welfare state practitioners in health and social services today. **Subject Area Workshop Report**

Council on Social Work Education 1954

**Broadening Horizons** Wanda Thomas Bernard 2017-03-02

While the remit of social work professionals is, in general, locality-based, social work has a long tradition of concern about international issues. Broadening Horizons provides an engaging and original contribution to the debate on how to tackle social work problems on a global scale. Filling both a theoretical and a practice gap in the literature, the book discusses the experiences of academics, practitioners and students involved in international exchanges in social work. It draws on a major EU-Canadian exchange project as well as separate projects in countries including South Africa, the USA, China and Australia. The contributors highlight the opportunities and barriers that shaped their experience and give guidance on how to deal with both the practicalities and aspirations of living and working across borders. This book will thus be invaluable both to readers interested in the meaning and realities of international social work and to those hoping to embark on an exchange programme themselves.

**The Child** 1948

**In the Best Interests of Children and Youth** Hans Grietens 2005

This book deals with the implementation and application of the "in the best interests of the child principle" in research and practice. With contributions by authors from nine different countries (United States, Belgium, France, Norway, The Netherlands, United Kingdom, Israel, Ireland, Canada) an international perspective is adopted. After the outline of the
theme given in the introductory chapter, the first part illustrates the search for theory-driven and empirically-based models to deal with the complexity of parenting. In the second part illustrations about the implementation and application of the best interests principle in child and youth care practice are given. Part three is focusing on the organization of child and youth care systems according to the best interests principle.

*International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* 2003

*Book Review Index* 2005 Every 3rd issue is a quarterly cumulation.

*Incorporating Engaged Research in Social Development* Wassie Kebede 2021-04-26 In a wide-ranging presentation derived from teaching experiences and research projects, seasoned professors, Wassie Kebede and Alice Butterfield, examine engaged research that links social work, human services, and social development with the intent of instigating action for social change. Drs. Kebede and Butterfield begin by introducing others to an overview of engaged research and models of social change, and then examine development issues in Ethiopia in view of engaged research. After offering their context of engaged research as a prototype for extrapolating development policies that can be studied, compared, and contrasted with those in other countries, Kebede and Butterfield present the results from the engaged research of former PhD students, now faculty at various universities in Ethiopia. The book provides a glimpse into the professors’ own experiences and an emphasis on the importance of involving faculty and students in engaged research through coursework. Incorporating
Engaged Research in Social Development is a comprehensive study that offers academic insight and research results in order to promote social development and change. Readers are encouraged to use this book for teaching and implementing engaged research in higher education. Guidelines for teaching undergraduate and graduate courses are included.

Becoming a Social Worker
Caroline Humphrey 2010-10-20
This book explores the journey of becoming a social worker. It is based upon the experiences of social work students themselves and therefore provides a unique 'inside-out' perspective. By showing that personal, professional and political elements are interwoven in students' journeys, the author demonstrates that integrating these elements is vital to critical reflection and relationship-based social work. Content includes social work theory, therapeutic and risk-management interventions, emotional and ethical aspects of practice, political and cultural contexts of practice, and issues around supervision and assessment. The book also:

- includes introductions, real-life case study exercises, points for reflection, diagrams and tables, further reading and resources
- equips new students to reflect upon their own journeying and to learn more effectively from modules and placements
- provides case study material on all aspects of placements such as meeting Key Roles and value requirements
- covers career pathways for final year students, including guidance on dealing with job interviews and occupational stress

This is important reading across a range of modules and will be particularly valuable for new students and students on placement.
