The Return of Ancestral Gods  Mariya Lesiv

2013-10-01 As Ukraine struggles to find its national identity, modern Ukrainian Pagans offer an alternative vision of the Ukrainian nation. Drawing inspiration from the spiritual life of past millennia, they strive to return to the pre-Christian roots of their ancestors. Since Christianity dominates the spiritual discourse in Ukraine, Pagans are marginalized, and their ideas are perceived as radical. In The Return of Ancestral Gods, Mariya Lesiv explores Pagan beliefs and practices in Ukraine and amongst the North American Ukrainian diaspora. Drawing on intensive fieldwork, archival documents, and published sources not available in English, she allows the voices of Pagans to be heard.

Paganism in Slavic countries is heavily charged with ethno-nationalist politics, and previous scholarship has mainly focused on this aspect. Lesiv finds it important to consider not only how Paganism is preached but also the way that it is understood on a private level. She shows that many Ukrainians embrace Paganism because of its aesthetic aspects rather than its associated politics and discusses the role that aesthetics may play in the further development of Ukrainian
Paganism. Paganism in Eastern Europe remains underrepresented within Pagan studies, and this work helps to fill that gap. Extensive comparative references to various forms of Western Paganism allows English-speaking readers to better understand the world of Ukrainian Pagans.

*An Anthology of Modern Ukrainian Drama* Larissa M. L. Zaleska Onyshkevych 2012 This book is the first extensive anthology of modern Ukrainian drama to be published in English. It is an insightful textbook and invaluable source of information for students of Ukrainian literature in English-speaking countries. Dr. Onyshkevych developed the idea for this collection while teaching Ukrainian literature at Rutgers University, New Jersey. In preparing a course on Ukrainian drama in translation, she discovered that only a few Ukrainian plays had ever been translated into English. Consequently Dr. Onyshkevych started planning and compiling an
anthology of the translated plays of a number of modern Ukrainian authors for use as a university textbook.

Contemporary Ukrainian and Baltic Art Svitlana Biedarieva 2021-09-21 This volume focuses on political and social expressions in contemporary art of Ukraine, Estonia, Lithuania, and Latvia. It explores the transformations that art in Ukraine and the Baltic states has undergone since their independence in 1991, discussing how the conflicts and challenges of the last three decades have impacted the reconsideration of identity and fostered resistance of culture against economic and political crises. It analyzes connections between the past and the present as seen by the artists in these countries and looks at their visions of the future. Contemporary Ukrainian art portrays various perspectives, addressing issues from controversial historical topics to the present military conflict in the East of the country. Baltic
art speaks out against the erasure of past historical traumas and analyzes the pertinence of its cultural scene to the European community. The contributions in this collection open a discussion of whether there is a single paradigm that describes the contemporary processes of art production in Ukraine and the Baltic countries. With contributions by Ieva Astahovska, Svitlana Biedarieve, Kateryna Botanova, Olena Martynyuk, Vytautas Michelkevičius, Lina Michelkevičienė, Margaret Tali, and Jessica Zychowicz.

Transformations and Changes in Contemporary Ukrainian Femininity Models by Nataliya Gudz 2008-10 Seminar paper from the year 2004 in the subject Sociology - Gender Studies, grade: 1,7, Otto-von-Guericke-University Magdeburg, course: Gender Issues in Contemporary Russia, 11 entries in the bibliography, language: English, comment: Doppelter Zeilenabstand., abstract: After the declaration of the Ukrainian independence and fall of the "iron curtain" the awareness of the Ukrainian women was drastically changed. Ideologically guided canon of femininity - "a Soviet super-woman" as "a working
mother" - has lost its actuality; in the 1990s it was changed by new life standards, behaviour models, values and moral norms. At once the nationalist movements appeared on the scene and demanded to design and maintain national identity with articulation of basic concepts of nationality. In Ukraine this process was socially defined through the modern reconstruction of patriarchy supported by the educational system, mass media, political discourse, and legislation. Having recognised Ukrainian as the official language, Ukraine began moulding ideology constructed on the conception of the pre-Revolutionary Ukraine. The entangled images of the Cossack republic and the image of Ukraine as Mother, together with vital revival of Orthodoxy, strengthened patriarchy in politics, social order and cultural structures of the modern Ukrainian society. However through economical crisis and society instability, the image of Mother-Protector correlated with the historical past and traditional culture of the Ukrainians was shifted from its key position by unfamiliar before, but rather appealing "Western models of femininity." In this paper we try to find out how all these images of femininity were created, maintained and transformed.
through the recent years.

_Ukraine_ Serhy Yekelchyk 2007-03-29 In 2004 and 2005, striking images from the Ukraine made their way around the world, among them boisterous, orange-clad crowds protesting electoral fraud and the hideously scarred face of a poisoned opposition candidate. Europe's second-largest country but still an immature state only recently independent, Ukraine has become a test case of post-communist democracy, as millions of people in other countries celebrated the protesters' eventual victory. Any attempt to truly understand current events in this vibrant and unsettled land, however, must begin with the Ukraines dramatic history. Ukraine's strategic location between Russia and the West, the country's pronounced cultural regionalism, and the ugly face of post-communist politics are all anchored in Ukraine's complex past. The first Western survey of Ukrainian history to include coverage of the Orange Revolution and its aftermath, this book narrates the deliberate construction of a modern Ukrainian nation, incorporating new Ukrainian scholarship and archival revelations of the post-communist period. Here then is a history of the land where the strategic interests of Russia and
the West have long clashed, with reverberations that resonate to this day.

Much of the analysis presented in the essays that make up this book deals with the responses of Ukraine's Eastern Christians to the challenge of the national idea. The book places the history and current status of Ukraine's
Orthodox and Greek Catholic communities into the context of the modern Ukrainian national revival of the late nineteenth and early twentieth centuries and the resurgence of Ukrainian national consciousness in the late 1980s and early 1990s.

Total Wars and the Making of Modern Ukraine, 1914–1954 George Liber 2016-05-09 Between 1914 and 1954, the Ukrainian-speaking territories in East Central Europe suffered almost 15 million “excess deaths” as well as numerous large-scale evacuations and forced population transfers. These losses were the devastating consequences of the two world wars, revolutions, famines, genocidal campaigns, and purges that wracked Europe in the first half of the twentieth century and spread new ideas, created new political and economic systems, and crafted new identities. In Total Wars and the Making of Modern Ukraine,
1914–1954, George O. Liber argues that the continuous violence of the world wars and interwar years transformed the Ukrainian-speaking population of East Central Europe into self-conscious Ukrainians. Wars, mass killings, and forced modernization drives made and re-made Ukraine’s boundaries, institutionalized its national identities, and pruned its population according to various state-sponsored political, racial, and social ideologies. In short, the two world wars, the Holodomor, and the Holocaust played critical roles in forming today’s Ukraine. A landmark study of the terrifying scope and paradoxical consequences of mass violence in Europe’s bloodlands, Liber’s book will transform our understanding of the entangled histories of Ukraine, the USSR, Germany, and East Central Europe in the twentieth century.

Research of development tendencies of modern Ukrainian society (historical - philosophical and educational aspects) Bogatchuk S., Mazylo I.,
Pikovska T., Makarov Z., Bielkin I., Mangora V., Mangora T. 2022-06-09 The collective monograph is devoted to the study of development trends of modern Ukrainian society. The study uses an interdisciplinary approach that allows you to analyze various aspects of the development of social processes in Ukraine and obtain socially significant scientific results. Svitlana Bogatchuk analyzes the processes of formation of applied research centers and attempts to form an educational system to improve the functioning of Ukrainian railways in the late nineteenth century. The study notes that the development of advanced industrial technologies at the time was impossible without adequate technical, scientific and human resources. Igor Mazylo continues to study the history of railway transport. The researcher emphasizes that railway transport during the Soviet-German war played an exclusive role in transporting the needs of the front and the reconstruction process in the economy. The section prepared by Tatiana Pikovskaya is devoted to the solution of the national question in the programs of political parties of national minorities. The history of the First Czechoslovak Republic is part of the political
history of Ukraine, because as a result of international treaties concluded after the First World War, Transcarpathian Russia became part of Czechoslovakia under the name "Subcarpathian Russ". This was the impetus for the formation of a democratic multiparty system in the region. The section highlights the peculiarities of Transcarpathian political parties of this period. Among them are multipartyism, the presence of a large number of Hungarian, German, and Jewish parties in addition to the Ukrainian one. In his section, Zorislav Makarov studies the historical-philosophical and methodological preconditions of the current sociological, post-positivist and postmodern critique of scientific rationality and deterministic ideas at the heart of its ontology. The author clarifies the reasons and prospects of significant philosophical and methodological reflection of communicative aspects of scientific rationality on the material of advanced science development of quantum and "nonlinear" samples of ontology and the corresponding improvement of scientific description. In the study of Igor Bielkin research reveals the methodological principles of effective use of the business game algorithm as a leading method of active training.
of future specialists in the field of management and business in modern institutions of higher education. Emphasis is placed on the modernization of the content of the educational process taking into account the current needs of professional training of modern managers using gaming technologies. Attention is paid to the implementation of communication comfort of students in vocational training in higher education institutions in the game environment, as well as the use of business games as a method of interactive learning of students in the real production process. Volodymir Mangora researches the peculiarities of information and legal support of legal education in modern Ukraine. The analysis of the current legislation regulating information and legal support of legal education is carried out. The main problems of information and legal support of legal education in terms of distance learning are identified. Proposals have been developed to improve the training of future lawyers. Tamila Mangora on the basis of studying the life of A. Yakovliv considered his formation as a lawyer and historian of law, analyzed the process of transformation of his political and legal views. As
a result of studying the works of A. Yakovliv, his views on the sources of Ukrainian law, Ukrainian-Moscow treaties, ideas about the formation of the Ukrainian nation and the formation of the state are highlighted. The content of the collective monograph corresponds to the direction of research work of the Department of History of Ukraine and Philosophy of Vinnytsia National Agrarian University "Study of trends in socio-economic development and consolidation of Ukrainian society in modern history of Ukraine."

In writing the monograph were used: historical and genetic method, statistical analysis, sociological and pedagogical research.

In the first (1875) he opposed legal discrimination against Jews, as it was based on medieval prejudice and did not achieve its aim of safeguarding the peasants' interests. The second was a response to the pogroms of 1881-82. He
blamed the Russian policy of concentrating the Jews in the Pale of Settlement for Ukrainian-Jewish tensions. He also criticized the Jews as a parasitic class which felt no solidarity with the Ukraine. He saw the solution in a Jewish socialist movement and a federation of Russia and Austro-Hungary, in which Jews would enjoy equal rights. Pp. 299-313, "The Problem of Ukrainian-Jewish Relations in Nineteenth-Century Ukrainian Political Thought, " discuss the approaches of three Ukrainian thinkers to the "Jewish question": Mykola Kostomarov, Mykhailo Drahomanov, and Ivan Franko. Kostomarov published an article in 1862 in "Osnova" to counter accusations in the Jewish journal "Sion" against the Ukrainian cultural movement. He supported Jewish emancipation, but accused the Jews of clannishness, indifference to the fate of their country, and acting as instruments of Polish oppression and exploiters of the peasants. Franko was a disciple of Drahomanov; he adopted the idea of Ukrainian independence and advocated Jewish-Ukrainian cooperation.

From “the Ukraine” to Ukraine Matthew Kasianov, Georgiy Minakov, Mykhailo Rojansky 2021-05-11 The contributors to this collection explore the multidimensional transformation of independent Ukraine and deal with her politics, society, private sector, identity, arts, religions, media, and democracy. Each chapter reflects the up-to-date research in its sub-discipline, is styled for use in seminars, and includes a bibliography as well as a recommended reading list. These studies illustrate the deep changes, yet, at the same time, staggering continuity in Ukraine’s post-Soviet development as well as various counter-reactions to it. All nine chapters are jointly written by two co-authors, one Ukrainian and one Western, who respond here to recent needs in international higher education. The volume’s contributors include, apart from the editors: Margarita M. Balmaceda (Seton Hall University), Oksana Barshynova (Ukrainian National Arts Museum), Tymofii Brik (Kyiv School of Economics), José Casanova (Georgetown
Conventional wisdom dictates that Ukraine's political crises can be traced to the linguistic differences and divided political loyalties that have long fractured the country. However, this theory obscures the true significance of Ukraine's recent civic revolution and the conflict's crucial international dimension. The 2013-14 Ukrainian revolution presented authoritarian powers in Russia with both a democratic and a geopolitical challenge. In reality, political conflict in Ukraine is
reflective of global discord, stemming from differing views on state power, civil society, and democracy. Ukraine's sudden prominence in American politics has compounded an already-widespread misunderstanding of what is actually happening in the nation. In the American media, Ukraine has come to signify an inherently corrupt place, rather than a real country struggling in the face of great challenges. Ukraine: What Everyone Needs to Know® is an updated edition of Serhy Yekelchyk's 2015 publication, The Conflict in Ukraine. It addresses Ukraine's relations with the West, particularly the United States, from the perspective of Ukrainians. The book explains how independent Ukraine fell victim to crony capitalism, how its people rebelled twice in the last two decades in the name of democracy and against corruption, and why Russia reacted so aggressively to the strivings of Ukrainians. Additionally, it looks at what we know about alleged Ukrainian interference in the 2016 US presidential election, the factors behind the stunning electoral victory of the political novice Volodymyr Zelensky, and the ways in which the events leading to the impeachment proceedings against President Donald Trump have changed
the Russia-Ukraine-US relationship. This volume is essential reading for anyone who wants to understand the forces that have shaped contemporary politics in this increasingly important part of Europe, as well as the international background of the impeachment proceedings in the US.
