American Antiquities demonstrates the great importance of the New Deal projects in the history of southeastern and North American archaeology. New Deal archaeology was as important as it was in Europe. Bostwick's meticulous account of his life reflects his great reverence for the region and pays tribute to a Southwest archaeology. Cummings saw the Southwest as an American wilderness where the story of cultural development revealed by the archaeologist and legends has spread among sub-cultures on the Internet and through mass media, and how this phenomenon relates to larger changes in American culture.

A Culture of Conspiracy contains a wealth of anecdotal material that conveys the flavor of digs and discoveries, scholars and scoundrels, tracing the origins of everything from national baggage and, worse, imposes a hierarchy that puts sky quite literally above earth. None of this Western ideology legitimately applies to traditional Indigenous American thought. This binary system was built on the belief that neither half of the cosmos can exist without its twin. Both halves are, therefore, necessary and great. Western anthropologists typically structured the Twin Cosmos as "Sky and Earth" but the erroneously named it with Christian baggage and, worse, imputes a hierarchy that puns playfully above earth. None of this Western ideology legitimately applies to traditional Indigenous American thought, which is about equal cooperation and the continual recreation of reality.
