Winner Kids Ravi Mahendra 2016-02-02 This is the story of a successful father describing his approach to parenting, making us think and consider what will make our children happy and successful individuals. Ravi Mahendra is a father of three young girls and he is passionate about parenting. He has personally gone on a journey of learning and developing the relationship between him and his daughters. Ravi delights in seeing his children become bigger and better individuals. Ravi believes passionately that parenting is about dedication and focus. The book is based on the principle that you are the best teacher for your children; you can pass on your knowledge and experience to help to support the best development of your child. The parent is the figure of authority, with immense responsibility for decisions regarding the children. This book draws out the benefits of really pro-actively grasping the responsibility and making the decisions rather than running with the flow. The real strength of this book lies with the thought process on determining priorities, characteristics and values that will produce successful children. It will inspire you to look at your parenting approach with a fresh set of eyes and help you to succeed on your chosen path. The book uses well-chosen examples from the world of business, politics and historical figures to really illustrate what success means and what needs to be done to achieve it. Ravi uses connection of business ideas and stories with parenting to bring a fresh perspective on children's upbringing. The book is drawing interesting connection from management and business theories to really focus on children leading successful lives. At a practical level, the book offers a vast array of examples on managing the prosaic day-to-day issues. Unless the practical challenges are resolved, it becomes very difficult to manage the more advanced parenting questions. Ravi does a great job in visualising the impact of our actions now on the children in the future. Ravi Mahendra lives with his three daughters in London. His career spans many areas: he has built a renowned business school in his native Sri Lanka, written business columns for newspapers and is a prize-winning Qualified Accountant with an MBA. Ravi is currently working as Global Finance leader in a large insurance organisation and he is also a regular blogger on LinkedIn. His aim is to live life to the fullest and to raise his children as successful and content individuals.

selling companies. It's time to forget your grandfather's advice. I'll teach you how to be a modern opportunist—investor, entrepreneur, or side hustler—by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multiskillers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The masses are broke ($4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these default rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.

Manna for the Spirit
jay Korsen 2016-11-25 A 365+ Day Biblical Devotional After 15 years of attending a Men's Bible study with my friends Wheeler and Paul, I decided to do an independent study of my own. I spend an hour each morning investigating real, tough, modern day biblical questions. After I get done, I try to distill the answers into a "Bible Minute" with a short introduction of the topic, a Bible verse or two or three and a short conclusion. I began posting these Bible Minutes on my Facebook page and before long I began to see true miracles. I heard stories of conversions, breakthroughs and restoration of relationships as a result of my studies. Make no mistake; I'm an average guy who just likes reading the Bible. I attended Bible College but after leaving a year decided that my true calling was being a chiropractor or performing physical science. I go to my own needs of the many stories that have been over the years and creating this book helps heal your soul, brings you closer to God, and allows you to grow a deeper relationship with Jesus. It is my prayer that this book provides the manna for your spirit, sets your soul free and becomes a true blessing in your life and in the lives of the people you gift this book to. In Health and Faith, Jay

You'll enjoy in changing the sequence to gain better results. You'll enjoy to add some actions or delete that... you'll enjoy testing other sequences. The incredible fact is that you have the chance to recognize and apply the sequence of wealthy people. The Stickies Strategy (r) is really powerful!!! What happen if you need some help? The Author, Riccardo Proetto, is here to help you with seminars, courses and coaching. He applied this theory for himself. In 2009 he lost everything. Something like some million euros, house... car... everything. The problem: Even if he has frequented courses and seminars for himself, that is always a good thing, no one has explained to him how to avoid the same mistakes. He used a lot of strategies, listened a lot of guru... but what his was looking for was not the cure. He wanted the healing. He wanted to help people and himself to avoid mistakes, to accelerate the learning process, to recognize the actions sequence of everything: wealthy style, healthy style... The good news is that he found the solution and the funny thing is that everything is based on personal meanings. The result: the system is always applicable. If you'll have the opportunity to participate at one of his seminars you'll listen with your ears and you'll see with your eyes how is his story. Inside Of This Book You'll Discover The Results of Studying The Stickies Strategy Tests: 90% of modern people are not able to get their hands on staggering savings of $55,000 or less. Every month people eventually add up to thousands or millions of dollars... The goal is to double your net worth. (Page 9) Sense of Spending The truly rich hold off gratification, knowing that what is trendy, popular or a must have today may not last until tomorrow. (Page 11) How interest affects your debt Pay more than the minimum on loans. The more you pay now, the less you pay later. (Page 13) Today millionaires spend more time selecting what to buy than buying the product itself. They look for the best bargain before laying their money down. (Page 15) THE STICKIES STRATEGY (r) ... I've seen during these years that our personal meaning of things is the real engine that let us go forward or backward. So I've developed the Stickies Strategy: You can find your exact sequence of actions through the "meanings" and improve or change that one... (Page 54) ...extra Steps: How to Use Your Passion to Succeed Over time, we often forget the passions of our childhood or even the ones we discover as we age. * Take a stroll down memory lane and make a list. 365 Glasses of Wine
Helen Brown 2017-02-15 After finding myself out of work, I needed something that would help me work on an intellectual level higher than housework provided. I joined Photo A Day in August 2013, and it helped. However, my world was becoming very small as I traveled very little, even to town. I found by the end of August 2014 that I was struggling to find photos that weren't just repeated. So I made a decision to take a break. Four days later, my life was turned upside down when my parents were involved in a car accident that took the life of my mother and kept my father in the hospital for three months. At the beginning of November, I decided to try again, but it wasn't long when I was dealing with the same problem as before. Depression was also becoming an increasing issue, and I prayed that God would help me find a way to deal with it on my own. My mother was no longer available to talk to. One morning, it came to me that I might try to write a story using the prompt as the title and take a photo related to the story. It seemed almost crazy but anything was worth a try. After all, I could only fail to deliver, and there would be no shame in that, just only in not trying. I surprised myself! There are some times we are addressed at the corner and have no idea what we want to write and bit by bit the words would come. There are also times when I have written more than one story. Other photos have also inspired stories. It was one of my daughter's who suggested that I put 366 of them together so you will have a story for each day to read. These are much shorter than my other creations, but I still pray that they will inspire you to keep going when life throws you a spanner. Isaiah 55:8 says, For my thoughts are not your thoughts, neither are your ways my ways, said the Lord. How true!

I highly recommend it for anyone hanging on to a lot of old hurts and struggling to get past certain portions of their life. Winning People, Losing America C. Colivier McNair 2016-11-29 Secular society coupled with religious culture
has inadvertently created a climate in America that blindly praises political correctness and the legislation of
questionable laws. Religious traditionalists must now contend with how to remain spiritually relevant in perilous and polarizing times without compromising age-old biblical practices and principles. A glorified biblical commentary, you might say this book addresses almost everything you wanted to ask your local traditional religious leader but was afraid to. Going to My Father's House Patrick Joyce 2021-07-27 From Ireland to London in the 1950s, Derry in the Troubles to contemporary, de-industrialised Manchester, Joyce finds the ties of place, family and the past are difficult to break. Why do certain places continue to haunt us? What does it mean to be British after the suffering of Empire and of war? How do we make our home in a hypermobile world without remembering our pasts? Patrick Joyce’s parents moved from Ireland in the 1930s and made their home in west London. But they never really left the homeland. And so as he grew up among the streets of Paddington and Notting Hill and when he visited his family in Ireland he felt a tension between the notions of home, nation and belonging. Going to My Father’s House charts the historian’s attempt to make sense of these ties and to see how they manifest in a globalised world. He explores the places - the house, the street, the walls and the graves - that formed his own identity. He ask what place the ideas of history, heritage and nostalgia have in creating a sense of our selves. He concludes with a plea for a history that holds the past to account but also allows for dynamic, inclusive change.
