Human Rights and Criminal Punishment

Jeffrey N. Wasserstrom 2004 Preface, Marilyn B. Young

Meaning and Rights Bruce Haddock 2004-06-02 This innovative volume brings a selection of leading political theorists to the wide-ranging debate on multifacility and political legitimacy. By focusing on the challenge to mainstream liberal theory posed by the surge of interest in the rights of minority groups and social movements, the contributors provide a platform for political and legal responses to the threat to civil liberties.

The Human Rights Revolution Akira Iriye 2012 This volume explores the place of human rights in history, providing an alternative framework for understanding global dynamics. The book covers case studies focusing on the 1980s through the present.

Human Rights as War By Other Means Jennifer Curtis 2014-08-04 Following the 1998 peace agreement in Northern Ireland, political violence has dramatically declined and the region has been promoted as a model for peacekeeping. Human rights discourse has played an ongoing role in the process but not always for the benefit of victims. During the later decades of the Cold War, it was a large period of rapid change in which human rights were promoted for social, economic, and political objectives. Indeed, as violence still periodically breaks out and some ethnocultural and class-based divisions have deepened, it is clear that the projection from human rights violations to human rights protections is neither inevitable nor smooth. Human Rights as War By Other Means engages with the problems of transitional justice and human rights institutions and the role of the international human rights system in determining how a country transitions from war to peace.

Inevitable Mortality and the Limits of Human Rights Jonathan Tabachnick 2015 This volume provides an accessible and comprehensive overview of the ways in which the human rights framework fails to adequately address the health and social determinants of health and to provide the context for understanding how health and social interventions can be improved by human rights approaches.

The Limits of Human Rights: Concepts, Politics, and Practice Marie-Bénédicte Dembour 2007-12-04 This volume examines how international justice can take purchase despite social challenges.

Confronting Past Human Rights Violations Marie-Bénédicte Dembour 2004-08-12 This book examines what makes accountability for previous violations possible or more likely.

Perpetrators and Their Demands: Accountability and the Peace Process Marie-Bénédicte Dembour 2004-08-12 This book examines what makes accountability for previous violations possible or more likely.

Human Rights and the Care of the Self Alexandre Lefebvre 2017 This book offers a new perspective on human rights by arguing that they should be seen as fundamentally about the care of the self. It shows how human rights discourse has been co-opted by political and social movements, and how it can be used to advance the goals of democratic government. The book argues that human rights should be seen as a means to an end, not an end in itself.

Human Rights and the Care of the Self: An Introduction to the Philosophy of Human Rights Alexandre Lefebvre 2017 This book offers a new perspective on human rights by arguing that they should be seen as fundamentally about the care of the self. It shows how human rights discourse has been co-opted by political and social movements, and how it can be used to advance the goals of democratic government. The book argues that human rights should be seen as a means to an end, not an end in itself.

Human Rights in Political Transitions Gettysburg To Bosnia is a major contribution to the ongoing debate about the role of human rights in political transitions. The book provides a comprehensive account of the development of human rights discourse in the post-war period and offers a nuanced and critical assessment of its effectiveness. It is a valuable resource for students and scholars of international relations, political science, and human rights.

Human Rights in Political Transitions Carla Ainslie Hesse 1999 Re-inventing the spy story for the 21st Century John Le Carre meets James Bond/Daniel Marchant, a MI6 officer, is running the London Marathon. He is also running out of time. A competitor is strapped with explosives. If he drops his pace, everyone will die. Marchant, the hero of the novel, runs hard and fast. He is a man who will do what is necessary to save lives. His wife, a social worker, has urged him not to run. But, he knows that running is the only way to save the world. The novel is a powerful statement on the importance of human rights and the need to protect them at all costs. It is also a call to action for everyone to stand up and fight for what is right. The novel is a reminder that we must always be vigilant and never take our rights for granted. It is a must-read for anyone who is passionate about human rights and wants to make a difference.
