The Protestant Temperament Philip Greven 1988-09-15 Bringing together an extraordinary richness of evidence—from letters, diaries, and other intimate family records of the seventeenth and eighteenth centuries—Philip Greven explores the strikingly distinctive ways in which Protestant children were reared in America. In tracing the hidden continuities of religious experience, of attitudes toward God, children, the self, sexuality, pleasure, virtue, and achievement, Greven identifies three distinct Protestant temperaments prevailing among Americans at the time: the Evangelical, the Moderate, and the General. The Protestant Temperament is a powerful reassessment of the role of child-rearing and religion in early American life.

John Singleton Copley in America Carrie Roraba Barratt 1995 A lavish, illustrated volume published to accompany an exhibition of Copley's work that will be traveling to several cities in 1996. The focus is on the paintings, miniatures, and pastels that Copley, the supreme portraitist of the colonial era, produced before he moved to London in 1774. Four principal essays place the work in historical and social context and bring new critical methods to bear upon the study of portraits and portraiture; four shorter essays treat various aspects of Copley's art and techniques. Catalog entries detail the sitters' lives and the ways in which Copley enhanced his subjects' status and presence. 10x12.25" Annotation copyright by Book News, Inc., Portland, OR

American Painting of the Nineteenth Century Barbara Novak 2007-01-12 In this distinguished work, which Hilton Kramer in The New York Times Book Review called "surely the best book ever written on the subject," Barbara Novak illuminates what is essentially American about American art. She highlights not only those aspects that appear indigenously in our art works, but also those features that consistently reappear over time. Novak examines the paintings of Washington Allston, Thomas Cole, Asher B. Durand, Fitz H. Lane, William Sidney Mount, Winslow Homer, Thomas Eakins, and Albert Pinkham Ryder. She draws provocative and original conclusions about the role of critics, art and literature, and the ways in which American art reflects the nation's diversity and the nation's response to the world around it. American Painting of the Nineteenth Century is destined to become the preeminent general survey of American painting in the nineteenth century.

Beyond Madness Norman A. Geiske 2007-12-01 This book, featuring the life and works of Ralph Blakelock, situates him in the context of American art. Representing over two centuries of study and the examination of several thousand works attributed to him, Beyond Madness reveals the unusual nature of Blakelock's life story as it offers clear parallels to his painting. Largely self-taught and supported by few patrons, Blakelock regularly struggled with the financial pressures of supporting his nine children and pursuing his art. Called both brilliant and doomed, and institutionalized on and off for the last decade of his life, he nonetheless created some of the most beloved—and some of the most frequently forged—paintings in the American canon. As in the author's own time, modern assessments of his work are often colored by notions of Blakelock the man, leading to a paradoxical legacy of suffering and hope, obscurity and prominence.

Taking Blakelock's art on its merits, Beyond Madness stands as a testament to the indefatigable spirit of art scholarship as well as a tribute to the artist and his enduring passion for the creative process. It finally casts new light on the life and character of Blakelock and on the nature of the incomparable art he contributed to the American tradition.

The Annals of America Encyclopedia Britannica, inc 1968 Each volume contains a chronology and primary source documents speeches, writings, illustrations. Thomas Moran Thurman Wilkins 1998 This extensively revised edition of Thurman Wilkins's masterful and engaging biography — well illustrated in color and black-and-white — draws on new information and recent scholarship to place Thomas Moran more securely in the milieu of the Gilded Age. It also portrays more fully the controversies that surrounded the art of Moran's time, as he became "the Dean of American Painters." The American West was the subject of Thomas Moran's greatest artistic triumphs—Yosemite, the Grand Canyon of the Colorado, Zion Canyon, the Virgin River, Colorado's Mountain of the Holy Cross, and the Grand Teton—but his travels with Ferdinand V. Hayden's geological surveys of the Upper Yellowstone were matched by trips to his native Britain and to Venice, Florida, the Spanish Southwest, and Old Mexico. These scenes inspired memorable landscapes and seascapes, as did the sojourns of the Moran family in Pennsylvania, New Jersey, and East Hampton, Long Island, when they retreated from the demands of the New York art scene. In the 1880s Moran and his artist wife, Mary Nimmo Moran, also threw themselves into the etching craze of the period, creating some of the finest prints produced in the United States. Moran was an artist happy in his work. He wrote, "I have always held that the grandest, most beautiful, or wonderful in nature, would, in capable hands, make the grandest, most beautiful, or wonderful pictures." The New York Times said of the first edition of this unique account of his life, "Moran's mastery comes through clearly and awesomely and often, pleasurably." Readers will find the new edition equally enjoyable.

The Evolution of Taste in American Collecting Renée Brimo 2016-12-13 The Evolution of Taste in American Collecting is a new critical translation of Renée Brimo's classic study of eighteenth- and nineteenth-century patronage and art collecting in the United States. Originally published in French in 1938, Brimo's foundational text is a detailed examination of collecting in America from colonial times to the end of World War I, when American collectors came to dominate the European art market. This work helped shape the then-budding field of American art history by explaining larger cultural transformations as manifested in the collecting habits of American elites. It remains the most substantive account of the history of collecting in the United States. In his introduction, Kenneth Hallman provides a biographical study of the author and his political and intellectual milieu in France and the United States. He also explains how Brimo's work formed a turning point and initiated a new area of academic study: the history of art collecting. Making accessible a text that has until now only been available in French, Hallman's elegant translation of The Evolution of Taste in American Collecting sheds new critical light on the essential work of this extraordinary but overlooked scholar.

Critical Issues In American Art Mary Ann Cato 2018-02-12 This anthology of essays on different critical approaches and methodologies for the analysis and interpretation of American art and artists is designed for students and teachers in American art history and American studies programs. It contains twenty selections from academic journals on American art from colonial times to 1940. Mary Ann Cato provides an introduction to the anthology, explaining its purpose and organization, and each selection has a brief introduction about its main focus and scholarly approach. These case studies show the diversity of scholarly thinking about interpreting American works of art, which should be useful for teachers and comprehensible and interesting for students. This anthology contains twenty articles on American art from colonial times to 1940. The selections are mainly from academic journals and aim to provide the student and teacher with different critical approaches and methodologies for the analysis and interpretation of American art and artists. Mary Ann Cato's preface to the anthology explains its purpose and organization, and each article will have a brief introduction about its main focus and scholarly approach. This text meets the need in American art history studies for an anthology of essays on critical approaches and methodologies.
