How to Talk About Hot Topics on Campus Robert J. Nash 2008-02-04 How to Talk About Hot Topics on Campus fills a gap in the student services and teaching and learning literature by providing a resource that shows how to construct and carry out difficult conversations from various vantage points in the academy. It offers a theory-to-practice model of conversation for the entire college campus that will enable all constituencies to engage in productive and civil dialogue on the most difficult and controversial social, religious, political, and cultural topics.

The Search for Ethics in Leadership, Business, and Beyond Joanne B. Ciulla 2020-05-05 This book brings together a wide range of topics in leadership ethics and business ethics. It approaches these topics from the perspective of the humanities as well as the social sciences. About half of the book is on leadership and the other half on topics in business ethics. Besides these general areas of research, the book explores how to teach and study ethics in both business ethics and leadership studies. Specifically, it examines issues ranging from the nature of ethical leadership, to studies of authenticity, virtue, and the public and private morality of leaders. In business ethics, the subjects covered span from moral imagination, to casuistry, meaningful work, and workplace ethics. The book includes a section on the importance of liberal arts for studying and teaching ethics in business and professional schools. It concludes with a reflection on the ethical challenges of leaders and followers in a world where some leaders have inverted moral values.

Encyclopedia of Business Ethics and Society Robert W. Kolb 2008 This encyclopedia spans the relationships among business, ethics and society, with an emphasis on business ethics and the role of business in society.

Teaching Media Ethics Sherry Baker 2020-11-26 Both new instructors teaching media ethics for the first time and mature faculty -- who recognize that media ethics instruction deserves more than being worked into the professional classes -- find most of their instructional techniques come from observing their own instructors or from hunches. The literature of media ethics appears to be long on principle and reasoning but short on how to transmit that body of wisdom to students already dazed by an assault on their right/wrong world. Accordingly, this special issue is aimed at providing some correction to the problem by presenting a few ideas to help instructors, whether they labor in the classroom or in the newsroom.

Confronting Scandal Erica Brown 2018 Looks at the emotional response by the Jewish community to reports of Jews committing crimes or involved in scandals, offering a way to transform the sense of shame into inspirational actions to influence a moral culture.

Edmund Burke for Our Time William F. Byrne 2021-08-15 This highly readable book offers a contemporary interpretation of the political thought of Edmund Burke, drawing on his experiences to illuminate and address fundamental questions of politics and society that are of particular interest today. In Edmund Burke for Our Time, Byrne asserts that Burke’s politics is reflective of unique and sophisticated ideas about how people think and learn and about determinants of political behavior.

Spirit Ethics Paul T. Jersild 2000 How can Christians responsibly derive moral guidance from the Bible on pressing issues of personal and social morality today? Jersild’s book sets the context for a study of Scripture and the moral life in a postmodern, pluralist society with its impact on biblical studies. The ethical contents and authority of Scripture are addressed, and a "Spirit ethics" is proposed as a way of developing a biblically based Christian ethics. Christians cannot simply adopt a once-and-for-all set of rules nor simply cite Bible verses against the latest sins. "Absolutely essential," says Jersild, "is the ongoing engagement of the church with the moral environment of society and the issues that this raises for the church." Jersild applies his model fruitfully and persuasively to three pressing and perplexing issues: assisted suicide, homosexuality, and genetic programs.

Teaching Business Ethics for Effective Learning Ronald R. Sims 2002 The key to teaching business ethics successfully, says Sims, is to start with clear goals and a sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He also emphasizes learning styles and experiential learning theory as cornerstones of teaching business ethics, an approach unlike any in the literature. An important guide for those who are new to teaching this essential subject, Sims’ book will also help more experienced teachers who wonder why their own methods do not always work, or do not work as well as they think they should.

Systems Thinking and Moral Imagination David J. Bevan 2019-04-17 This volume brings together a selection of papers written by Patricia Werhane during the most recent quarter century. The book critically explicates the direction and development of Werhane’s thinking based on her erudite and eclectic sampling of orthodox philosophical theories. It starts out with an introductory chapter setting Werhane’s work in the context of the development of Business Ethics theory and practice, along with an illustrative time line. Next, it discusses possibilities of the faculty’s ideas that have been divided across a range of themes, and examines Werhane’s contribution to these thematic areas. Patricia H. Werhane is a renowned author and innovator at the intersection of philosophy and Applied Business Ethics. She is professor emerita and a senior fellow at the Olsson Centre for Applied Ethics at Darden and was formerly the Ruffin Professor of Business Ethics. She is also professor emerita at DePaul University, where she was Wicklander Chair in Business Ethics and director of the Institute for Business and Professional Ethics. A prolific author who has written on Professional Ethics and Management Decision-Making and Organization Ethics for Health Care, Werhane is an acclaimed authority on employee rights in the workplace, one of the leading scholars on Adam Smith and founder and former editor-in-chief of Business Ethics Quarterly, the leading journal.

Managing Business Ethics Alfred A. Marcus 2019-12-19 Managing Business Ethics: Making Ethical Decisions teaches students how to navigate ethical issues they will encounter using the weight-of-reasons approach applied throughout the book. This decision-making framework’s goal is not to faithfully apply particular philosophical perspectives on what is right, but rather to solve ethical problems. The authors underscore the need for employees at all levels to carefully consider the ethical implications of their actions using this approach and it can be applied at the individual, organizational, and stakeholder levels. Chapters provide a case to walk through application of the framework and multiple cases allow to both apply the framework on their own. A wide range of real-world case studies are presented, featuring companies such as Facebook, Google, Wells Fargo, Volkswagen, and Amazon. This practical, down-to-earth text also delves into topics not covered extensively by other books such as slow and fast thinking, the inherent conflict between the individual and organization, conformity, and the difficulties of speaking truth to power. Students are offered ample opportunity to engage in thoughtful reflection, discussion, and debate, and are equipped with ethical issues big and small. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

Complementarity of Human Life and Other Life Forms in Nature Prem Xalxo 2007 The root cause of current environmental crisis has been equated with the rupture of human interconnectedness with nature and defined as the alienation of human beings from God, fellow human beings, and from nature. The loss of human dignity and the right order in creation are the creator and master of creation, promoting love and communion among human beings and maintaining an attitude of responsible care for other life forms in nature could end this alienation. The present research on the human interconnectedness with nature is an attempt to define human obligations toward the environment. Two paradigms have strong potential for inculcating a sense of appreciation and gratitude to God for the gift of life a respect for all life forms and a harmonious relationship with the entire creation.

Exploring Professional Development Opportunities for Teacher Educators Leah Sharqir 2021-07-14 Focusing on the partnerships and collaborations between teacher educators and school districts, contributors from around the world provide insight into professional development opportunities in the context of teaching and collaborating with students. Contributions from these distinguished scholars come from a broad range of countries and cultures to ensure that the presented studies reveal rich information about diverse systems of teacher education. The studies presented in the book demonstrate how these faculty student partnerships can significantly assist faculty members to develop professional identities and impacts on their professional identity. Providing ideas and tools aimed at teacher educators around the world, this book explores partnerships and cooperation as a tool to lead to development and ultimately promotion. This book is a must-read for all researchers, teacher educators and lecturers looking to expand their knowledge of partnerships with students in higher education.
of Business Ethics. She was a founding member and past president of the Society for Business Ethics and, in 2001, was elected to the executive committee of the Association for Practical and Professional Ethics. Before joining the Darden faculty in 1993, Werhane served on the faculty of Loyola University Chicago and was a Rockefeller Fellow at Dartmouth College and Senior Fellow at Cambridge University.

John Dewey and Moral Imagination
Steven Fesmire
2003-09-04 While examining the important role of imagination in making moral judgments, John Dewey and Moral Imagination focuses new attention on the relationship between American pragmatism and ethics. Steven Fesmire takes up threads of Dewey’s thought that have been largely unexplored and elaborates pragmatism’s distinctive contribution to moral experience, inquiry, and judgment. Building on two Deweyan notions -- that moral character, belief, and reasoning are part of a social and historical context and that moral deliberation is an imaginative, dramatic rehearsal of possibilities -- Fesmire shows that moral imagination can be conceived as a process of aesthetic perception and artistic creativity. Fesmire’s original readings of Dewey shed new light on the imaginative process, human emotional make-up and expression, and the nature of judgment. This book presents a robust and distinctly pragmatic approach to ethics, politics, moral education, and moral conduct.

Confronting Religious Denial of Gay Marriage
Catherine M. Wallace
2015-10-27 Writing in part for secular humanists, non-Christians, and ex-Christians, Wallace locates the beginning of religious vilification of LBGTQ Americans: these attacks recycle earlier, equally reactionary political opposition to racial desegregation and equal rights for women. Then, step by step, she lays out three major flaws in the religious argument against gay marriage. First, it derives from Plato and Greco-Roman sexual anxieties, not from Jesus. Second, opposition to gay marriage takes Bible verses out of context, ignoring their roots in Iron Age biology, sexual politics in the classic era, and pagan ritual practices. Third and most importantly, this opposition reflects an inadequate moral theology based on a denial of contemporary science and social science. Then and only then does she offer her own concept of marriage as a morally rooted, creative process, laying out common ground easily shared by Christian humanists and secular humanists alike. Her nimble, accessible account, richly leavened by personal stories, will facilitate new conversations and alliances among all those, believers and nonbelievers alike, who affirm the moral dignity of gay marriage.

The Moral Imagination and the Legal Life: Zenon Bankowski 2016-03-03 What role can resources that go beyond text play in the development of moral education in law schools and law firms? How can these resources--essentially those invisible strands of visual arts--nourish the imagination needed to confront the ethical complexities of particular situations? This book asks and answers these questions, thereby introducing radically new resources for law schools and law firms committed to fighting against the moral complacency that can all too often creep into the life of the law. The chapters in this volume build on the companion volume, The Arts and the Legal Academy, also published by Ashgate, which focuses on the role of non-textual resources in legal education generally. Concentrating in particular on the moral dimension of legal education, the contributors to this volume include a wide range of theorists and leading legal educators from the UK and the US.

Nanotechnology: Ethics and Society: Deb Bennett-Woods 2018-10-03 From manufacturing to medicine, nanotechnology implies revolutionary change. However, the sweeping changes wrought by a technological advance of this magnitude are likely to come at a price that includes unforeseen environmental impact, disruptions in industry, displacement of workers, and deeply controversial applications of the technology and its offspring. Nanotechnology: Ethics and Society provides a conceptually clear and straightforward ethical framework, in which pragmatic questions can be raised regarding the impact of nano-related technologies. The book focuses on general issues related to nanotechnology in nanomaterials and manufacturing as well as impacts on the marketplace and workforce. After an overview of the nanotechnology revolution, the text illustrates key concepts in the assessment model and then applies this model to a case study related to human enhancement technologies. It also offers an ethical agenda for addressing the challenges of nanotechnology. Nanotechnology promises to be the next great technological revolution. This important volume provides a framework for deciding how best to take advantage of nanotechnology opportunities while also minimizing the harm of negative effects.

Bioethics, Healthcare and the Soul: Henk ten Have 2021-09-17 This thought-provoking book explores the connections between health, ethics, and soul. It analyzes how and why the soul has been lost from science’s world and how ethics, religion, and art can nourish the imagination needed to confront the ethical dilemmas of our time. It offers an ethical agenda for addressing the challenges of nanotechnology. After an overview of the nanotechnology revolution, the text illustrates key concepts in the assessment model and then applies this model to a case study related to human enhancement technologies. It also offers an ethical agenda for addressing the challenges of nanotechnology. Nanotechnology promises to be the next great technological revolution. This important volume provides a framework for deciding how best to take advantage of nanotechnology opportunities while also minimizing the harm of negative effects.
rediscover identity, humanity, and meaning in healthcare and bioethics. Taking a multidisciplinary approach, they investigate philosophical, scientific, historical, cultural, social, religious, economic, and environmental perspectives on bioethics and the role of the moral imagination. Bioethics, Healthcare and the Soul is an important read for students, researchers, and practitioners interested in bioethics and person-centred healthcare.

**Public Service Ethics** James S. Bowman 2018-05-30
Ethics—in all its exemplary and exhausting forms—matters. It deals with the most gripping question in public life: “What is the right thing to do?” Now in a thoroughly revised second edition, Public Service Ethics: Individual and Institutional Responsibilities introduces readers to this personally relevant and professionally challenging field of study. No matter the topic—the necessity of ethics, intriguing human behavior experiments, the role of ethics codes, whistleblowing incidents, corruption exposures, and the grandeur and decay of morality—there is no shortage of controversy. The book enables readers to: appreciate why ethics is essential to leadership; understand and apply moral development theory at the individual and organizational levels of analysis; traverse the journey toward a new, ethical system of universal laws dictated by reason. According to the Western moral tradition, we make ethical decisions through the impartial application of a moral law. But Johnson shows how research in cognitive science undermines this view and reveals that imagination has a crucial role in ethical deliberation. Expanding his innovative studies of human imagination, Mark Johnson argues that humans are fundamentally imaginative moral animals, challenging the view that morality is simply a system of universal laws dictated by reason. According to the Western moral tradition, we make ethical decisions by applying universal laws to concrete situations. But Johnson shows how research in cognitive science undermines this view and reveals that imagination has an essential role in ethical deliberation. Expanding his innovative studies of human reason in Metaphors We Live By and The Body in the Mind, Johnson provides the tools for more practical, realistic, and constructive moral reflection.

**Nation, Self and Citizenship** Randolf S David 2004-03-04
The present volume invites the student to learn sociology by looking at her own formation as a human being, growing up and living in a society that time incessantly shapes and organizes in a specific but ultimately predictable way. Instead of talking about society in the abstract, we give it names -- our families, our communities, the Filipino nation, or the vast planet that we must share with the different nations of the world. Instead of talking about just anybody's biography, we refer to one's own life-long project of building and negotiating selfhood as ongoing achievements, subject to the blind imprints of the past, the contingencies of the present, and our individual collective strivings for a better future. The discourse of nationhood and social responsibility pervades every area of Philippine social science. The Filipino nation is unfinished business, and therefore it is understandable that in public discourse the nation's needs take moral precedence over individual fulfillment. Thus, the book takes up the troubled quest of the modern Filipino for autonomy and meaning in the bosom of his own society, a young nation that is itself aspiring to grown into full modern nationhood in a globalized and, some say, postmodern era. — From the introduction

**Mass Media and Society in Nigeria** Lai Oso 2012-05-30
