Nancy Princenthal 2015-06-16 The first biography of visionary artist Agnes Martin, one of the most original and influential
artists of the postwar period. Over the course of her career that spanned fifty years, Agnes Martin’s austere, serene work anticipated and helped to define
Minimalism, even as she battled psychological crises and carved out a solitary existence in the American Southwest. Martin identified with the Abstract
Expressionists but her commitment to linear geometry caused her to be associated in turn with Minimalist, feminist, and even outsider artists. She moved
throughout her life from drawing and printmaking toward the final grid paintings that constituted the focus of her oeuvre.

Feldman and the critic and curator Lucy Lippard, who have been closely involved with her work. Together these form a consistent narrative that speaks

Patricia Johanson and the Re-invention of Public Environmental Art, 1958-2010 Xin Wu 2013 Impeccably researched and richly detailed, this book addresses the issue of translation between visual arts and landscape design in the 50-year career of American painter and environmental artist Patricia Johanson. Exploring the artist’s search for an art of the real as a member of the postwar New York art world, it demonstrates that visual translation cannot be understood solely through the works of art, instead attention must be paid to the process of creation. This book is an insightful attempt to confront a crucial question in the history of art through the work of a contemporary artist.
