**Blessings from Beijing** Greg C. Bruno 2018-04-03 As we approach the sixtieth anniversary of China’s 1959 invasion of Tibet—and the subsequent creation of the Tibetan exile community—the question of the diaspora’s survival looms large. Beijing’s foreign policy has grown more adventurous, particularly since the post-Olympic expansion of 2008. As the pressure mounts, Tibetan refugee families that have made their homes outside China—in the mountains of Nepal, the jungles of India, or the cold concrete houses high above the Dalai Lama’s monastery in Dharamsala—are migrating once again. Blessings from Beijing untangles the chains that tie Tibetans to China and examines the political, social, and economic pressures that are threatening to destroy Tibet’s refugee communities. Journalist Greg Bruno has spent nearly two decades living and working in Tibetan areas. Bruno journeys to the front lines of this fight: to the high Himalayas of Nepal, where Chinese agents pay off Nepali villagers to inform on asylum seekers; to the monasteries of southern India, where pro-China monks wish the Dalai Lama dead; to Asia’s meditation caves, where lost souls ponder the fine line between love and war; and to the streets of New York City, where the next generation of refugees strategizes about how to survive China’s relentless assault. But Bruno’s reporting does not stop at well-worn tales of Chinese meddling and political intervention. It goes beyond them—and within them—to explore how China’s strategy is changing the Tibetan exile community forever.

Their Footprints Remain Aili Piano 2007 By the end of the 19th century, British imperial medical officers and Christian medical missionaries had introduced Western medicine to Tibet, Sikkim, and Bhutan. Their Footprints Remain uses archival sources, personal letters, diaries, and oral sources in order to tell the fascinating story of how this once-new medical system became imbedded in the Himalayas. Of interest to anyone with an interest in medical history and anthropology, as well as the Himalayan world, this volume not only identifies the individuals involved and describes how they helped to spread this form of imperialist medicine, but also discusses its reception by a local people whose own medical practices were based on an entirely different understanding of the world.

The Oxford Handbook of International Refugee Law Cathryn Costello 2021-06-02 The Oxford Handbook of International Refugee Law is a comprehensive, critical work, which analyses the state of research across the refugee law regime as a whole. Drawing together leading and emerging scholars, the Handbook provides both doctrinal and theoretical analyses of international refugee law and practice. It critiques existing law from a variety of normative positions, with several chapters identifying foundational flaws that open up space for radical rethinking. Many authors work directly in the field, and their contributions demonstrate how scholarship and practice can mutually inform each other. Contributions assess a wide range of international legal instruments relevant to refugee protection, including from international human rights law, international humanitarian law, international migration law, the law of the sea, and international and transnational criminal law. Geographically, contributors examine regional and domestic laws and practices from around the world, with 10 chapters and 42 contributions on specific regions. This Handbook provides an account, as well as a critique, of the status quo, and in so doing sets the agenda for future academic research in international refugee law.

Lives in Exile Honey Oberoi Vahali 2020-08-10 This book explores the devastating consequences and psychological ruptures of refugeehood as it evocatively recounts the life histories of displaced Tibetans expelled from their homes since 1959. Following the genre of a story, the book offers dynamic understandings of unconscious processes and the intergenerational transmission of trauma across generations of an exiled and internally displaced people. The book analyses the paradoxical spaces which Tibetans in exile occupy as they strive to preserve their cultural and spiritual heritage, rituals, religion, and language while also dynamically remoulding themselves to adapt to their living realities. Presenting a nuanced picture, it narrates stories of refugees, political prisoners and survivors of torture along with stories of loss and anguish, cultural celebrations and political demonstrations. The author in this new edition highlights and explores the art, artists, and poetry in the exiled community. The volume also looks at the significance of Buddhism and the philosophy of the Dalai Lama for the people in exile and the personal and collective will of the community to connect their lost past to a living present and an imagined future. Rooted in the psychoanalytical tradition, this book will be of interest to psychologists, sociologists, political scientists, scholars of literature, and arts and aesthetics. It will also appeal to those interested in Sino-Tibetan relations, Buddhist studies, South Asian studies, and peace studies, and those working with refugees, and displaced persons.

Nepal and the Geo-Strategic Rivalry between China and India Sanjay Upadhya 2012-02-27 The importance of the Himalayan state of Nepal has been obscured by the international campaign to free Tibet and the vicissitudes of the Sino-Indian rivalry. This book presents the history of Nepal’s domestic politics and foreign relations from ancient to modern times. Analysing newly declassified reports from the United States and Britain, published memoirs, oral recollections and interviews, the book presents the historical interactions between Nepal, China, Tibet and India. It discusses how the ageing and inevitable death of the 14th Dalai Lama, the radicalization of Tibetan diaspora and the ascendancy of the international campaign to free Tibet are of increasing importance to Nepal. With its position between China and India, the book notes how the focus could shift to Nepal, with it being home to more than 200,000 Tibetan refugees and its chronic political instability deepening by the Asian ‘great game’. Using a chronological approach, the past and present of the rivalry between China and India are studied, and attempts to chart the future are made. The book contributes to a new understanding of the intricate relationship of Nepal with these neighbouring countries, and is of interest to students and scholars of South Asian studies, politics and international relations.

Nationality and Statelessness in the International Law of Refugee Status Eric Fripp 2016-09-22 International refugee law anticipates state conduct in relation to nationality, statelessness, and protection. Refugee status under the Convention relating to the Status of Refugees 1951 and regional and domestic instruments referring to it can be fully understood only against the background of international laws regarding nationality, statelessness, and the consequences of national status or the lack of it. In this significant addition to the literature a leading practitioner in these fields examines, in the light of international law, key issues regarding refugee status including identification of ‘the country of his nationality’, concepts of ‘effective nationality’, and the inclusion within ‘persecution’ of a range of acts or omissions focused on nationality.

Refugees from Tibet Autonomous Region of People’s Republic of China commenced fleeing into Nepal in the year 1959 till today. The Bhutanese refugees first entered Nepal in 1990 and the number reached 107,810 in 2008. Additionally, remarkable numbers of the asylum seekers from different countries are taking refuge in Nepal. Quantitative and qualitative data from both primary and secondary sources are utilized in this triangulation study. Semi-structured questionnaires were used to collect data from 100 Tibetan and Bhutanese refugee respondents. A focused group discussion was carried out with 35 urban refugees and a semi-structured interview was conducted with a subject matter expert. The study shows that 90 percent of the Tibetan and Bhutanese refugees are facing various problems: identity, unemployment, health, socio-cultural and religious, access to further education, food, shelter. Refugees are found involved in various frivolities: murder, rape, looting, fake citizenship, fake passports, etc. Questionnaire papers were distributed to the Tibetan and 47 percentage of the Bhutanese refugees agreed that Nepal is facing different problems due to the refugee influx. Exile as Challenge Dagmar Bernstorff 2003 This Book Is An Attempt To Document The Lives Of Members Of The Exiled Tibetan Community In Indian And Elsewhere. It Thus Aims To Fill A Gap In Our Understanding. The Book Focuses On Two Main Themes: How Tibetans In Exile Preserve Their Culture, And How The Community Prepares Itself For The Return To Tibet. The Book Also carries an interview with his holiness the Dalai Lama Precarity and Belonging Catherine S. Ramirez 2021-06-18 Precarity and Belonging examines how the movement of people and their incorporation, marginalization, and exclusion, under epochal conditions of labor and social precarity affecting both citizens and noncitizens, have challenged older notions of citizenship and belonging. This collection brings mobility, precarity, and citizenship together in order to explore the points of contact and friction, and, thus, the spaces for a possible politics of commonality between citizens and noncitizens. The editors ask: What does modern citizenship mean in a world of citizens, denizens, and noncitizens, such as undocumented migrants, guest workers, permanent residents, refugees, detainees, and stateless people? How is the concept of citizenship, based on assumptions of deservingness, legality, and productivity, challenged when people of various and competing statuses and differential citizenship practices interact with each other, revealing their co-constitutive connections? How is citizenship valued or revalued when labor and social precarity impact those who seemingly haven’t the right to do so? This book investigates such binaries as citizen/noncitizen, insider/outsider, entitled/unentitled, “legal”/“illegal,” and deserving/undeserving in order to explore the fluidity—that is, the dynamism and malleability—of the spectra of belonging. Children Without a State Jacqueline Bhabha 2011 This text identifies three contemporary manifestations of stateless: legal statelessness, de facto statelessness and effective statelessness. The book provides a variety of examples, including chapters on Palestinian children in Israel including undocumented young people seeking higher education in the United States. All Roads Lead North Amish Raj Mulmi 2022-05-01 During the June 2020 territorial dispute over Kalapani, India blamed tensions on a newly asserted Nepal’s deepening relations with China. By the time of the extradition and grandstanding, this notion of Nepali nationality: the narratives in South Asia have been redrawn, to make space for China. Nepal did not turn northwards overnight. Its ties with China have deep historical roots built on Buddhism, dating to the early first millennium. While India’s unofficial 2015 blockade provided momentum to the rift with Delhi, Nepal has long wanted deeper ties with Beijing, to counteract India’s oppressive intimacy. With China’s growing South Asian and global ambitions, Nepal now has a new primary bilateral partner-and Nepal’s are forging a path towards modernity with its help, both in the remote borderlands and in the cities. All Roads Lead North offers a long view of Nepal’s foreign relations, today underpinned by China’s world-power status. Sharing never-before-told stories about Tibetan guerrilla fighters, failed coup leaders and transit- Himalayen traders, Nepal analyst Amish Raj Mulmi examines the histories binding mountain communities together across the Sino-Nepali border. Part history, part journalistic account, Mulmi’s is a complex, compelling and rigorously researched study of a small country caught between two neighbourhood giants. China’s Frontier Regions Doug Smith 2016-03-08 China has traditionally viewed her frontier regions—Zxinjiang, Tibet, Inner Mongolia and Yunnan—as buffer zones. Yet their importance as commercial and cosmopolitan hubs, intimately involved in the transmission of goods, peoples and ideas between China and it west and southwest has meant they are crucial for China’s ongoing development. The resurgence of China under Deng Xiaoping’s policy of ‘reform and opening’ has therefore led to a focus on integrating these regions into the PRC (People’s Republic of China). This has important implications not only for the frontier regions themselves but also for the neighbouring states, with which they share strong trans-Himalayan linguistic and economic ties. China’s Frontier Regions explores the challenges presented by this integrationist policy, both for domestic relations and for diplomatic and foreign policy relations with the countries abutting their frontier regions. Encyclopedia of Diasporas Melvin Ember 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public. Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture; usually leaving for what is perceived as a “better life”. Not only does this diaspora change the country of adoption, but also the country of origin. Many large nations in the world have absorbed, and continue to absorb, large numbers of immigrants. The foreseeable future will see a continuation of large-scale immigration, as many countries experience civil war and secessionist pressures. Currently, there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world’s cultures and provides an overview of important topics in the world’s diasporas. The encyclopedia consists of two volumes covering three main sections: Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration. These essays discuss the history behind the social, economic, and political reasons for leaving the original countries, and the cultures in the new places; Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures, including the arts they bring, the struggles they face, and some of the cities that are in the forefront of receiving immigrant cultures; Diaspora Communities include over 60 portraits of specific diaspora communities. Each portrait follows a standard outline to facilitate comparisons. The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants, and to find out about particular cultures, topics and communities. It will prove of great value to researchers and students, curriculum developers, teachers, and government officials. It brings together the disciplines of anthropology, social studies, political studies, international studies, and immigrant and immigration studies.

Refugee Law in India Shuvro Prosun Sarker 2017-08-08 This book considers refugee protection mandates and addresses how legal scholarship can articulate a comprehensive and humane response to the contemporary refugee problem. Analyzing philosophical discourses and India’s policies and practices on refugee protection, including judgments of Indian Courts in refugee related cases, it examines how organizational efforts can make these policies and practices equal for every refugee in India. It also surveys prevailing discriminative protection standards and entitlements developed through Conventions, Declaration and Directives, and compares and contrasts national refugee legislations in South Africa, Brazil and Canada. A key read for scholars and practitioners interested in the legal and policy implications of refugee protection, this text identifies various practices of nation-States from across the North/South divide and provides key insights into the evolving nature of protection agendas.
